AGES OF CREATION Roger Rali, 2013-05 Understanding the dimensions and mechanics of the bible is far crucial in understanding of the bible itself Fresh and new revelations will be like links on the chain when you read the bible from cover to cover with this very nature in mind Bible is no different to the concept of a jigsaw puzzle All the individual 66 books and epistles that sum up the bible are incomplete in its individuality You can find that missing jigsaw piece nowhere but within the vicinity of the bible itself For instance Genesis without the other 65 books and epistles is incomplete and so forth Oracles in the bible are scattered and blended with other testimonial experience so that an ordinary mind will look but shall not see and listen but cannot hear The Pharisees High Priests and the Jewish authorities opposed and rejected Jesus for their lack of awareness about the dynamics of the bible You are very blessed for discovering this GOLDEN SECRET about the divinity of the bible Moreover the bible is an encyclopedia of its own having answers to its own questions and all the questions mankind can ever think of In other words bible itself is the absolute and divine meaning of COMPLETION lacking nothing In it is fullness of life health wealth prosperity authority and power without lack of any kind for it is a piece of God's mind and heart constrained to mankind's calling and thinking cap In God is fullness of life so shall be it for His inspired book of all times The Holy Bible

The Patristic Understanding of Creation William A. Dembski, Wayne J. Downs, Fr. Justin B. A. Frederick, 2019-11-14 The Patristic Understanding of Creation encapsulates what the Church Fathers had to say in their own words on the topic of creation Going back to Roman and Byzantine times the writings of the Church Fathers are basic to Christian theology and provide a benchmark for how Christians have traditionally understood creation This understanding of creation however faces tremendous challenges in our day especially in discussions at the intersection of science and religion Process theology and other efforts to reconceptualize creation have explicitly opposed key elements of the Christian doctrine of creation creation ex nihilo the transcendence and immanence of God in creation the absolute creatureliness and non self

sufficiency of the world to use a phrase of Fr Georges Florovsky the goodness of creation and the openness of the world to divine action All of these the Church Fathers not only held but also ably defended This anthology is therefore not merely of academic or historical interest In reasserting a theologically sound understanding of creation this anthology fills a need that is both practical and urgent

Restructuring Capitalism Rogene Buchholz,2017-04-21 The main theme of this book is that within contemporary capitalist societies a materialist outlook informed by science has triumphed creating the lack of a spiritual dimension to give meaning and purpose to the activities that are necessary for a capitalist society to function effectively Capitalist societies are in trouble and need to be restructured to provide for the material needs of all the people who work within the system not just the one percent but because of the lack of a spiritual connection with each other and with nature this is not likely to happen It has been said that society and the organizations within treat one another as objects to be manipulated in the interests of promoting economic growth and treat nature as an object to be exploited for the same purpose This way of treating each other and nature is consistent with the way a capitalist system has worked in the past and was supposed to enable it to function efficiently to provide a fulfilling and enriched life for all its adherents through growth of the economy However as capitalist societies have become dysfunctional they will need a different kind of orientation to continue in existence Restructuring Capitalism Materialism and Spiritualism in Business argues that what is needed is a new sense of a
