

Capstone Project – Putting It All Together

Objectives

- Understand the steps involved in planning and implementing a technical solution for a small business.
- Gather relevant information to help devise a technical solution to a problem.
- Devise a technical solution for a small office environment.
- Prototype a proposed technical solution using Packet Tracer 4.1.
- Plan the installation of a technical solution for a small business environment.
- Prepare and present a technical report to a diverse group.
- Configure a wireless router to support the requirements of a small business environment.

Background / Preparation

You have just successfully completed the first course in the CCNA-Discovery series and have obtained a contract position at a small advertising company called AnyCompany Corporation to help them update their IT resources. The company originally started with two partners who produced print flyers for local businesses. Their list of customers has greatly expanded, and their customers are demanding more interactive advertising media, including video presentations. The partners recognize the business potential in this new market and have hired you to review their existing IT resources and produce a proposal that allows the company to take advantage of this new market. The partners have stated that if the proposal meets their requirements, they may hire you full-time to implement and manage these new resources.

Step 1: Gather information and determine customer requirements

You now have an idea of the scope of the project that you have undertaken, but do not have all of the information required to proceed. The first step in any IT project is to gather information. What is really required? What are the budget and the time frame to complete this project? What restrictions, if any, are there in equipment and resource selection? What resources are currently in place? The more information that you gather at the beginning of any project, the better.

A good way to start the information gathering process is to conduct interviews with the key individuals within the company, who are usually divided into three main groups: managers, end users, and IT support. Each group can provide valuable information.

Managers – Managers can answer questions regarding budget, expectations, and future plans. Any IT solution must take into account the plans that the company may have for growth, either in the number of employees or the technology being deployed. Managers can also provide you with information regarding company policies that may affect the proposed solution. Policies could include such things as access, security, and privacy requirements.

The following information is normally gathered from managers:

- Budget
- Requirements and expectations
- Restrictions
- Staffing
- Future growth

Lorenz, 2008-04-28 Working at a Small to Medium Business or ISP CCNA Discovery Learning Guide Working at a Small to Medium Business or ISP CCNA Discovery Learning Guide is the official supplemental textbook for the Working at a Small to Medium Business or ISP course in the Cisco Networking Academy CCNA Discovery curriculum version 4.1. The course, the second of four in the new curriculum, teaches networking concepts by applying them to a type of network you might encounter on the job in a small to medium business or ISP. After successfully completing the first two courses in the CCNA Discovery curriculum, you can choose to complete the CCENT Cisco Certified Entry Network Technician certification exam, which would certify that you have developed the practical skills required for entry-level networking support positions and have an aptitude and competence for working with Cisco routers, switches, and Cisco IOS Software. The Learning Guide, written and edited by instructors, is designed as a portable desk reference to use anytime anywhere to reinforce the material from the course and organize your time. In addition, the book includes expanded coverage of CCENT/CCNA exam topics. The book's features help you focus on important concepts to succeed in this course:

- Chapter Objectives:** Review core concepts by answering the focus questions listed at the beginning of each chapter.
- Key Terms:** Refer to the lists of networking vocabulary introduced and highlighted in context in each chapter.
- The Glossary:** Defines each key term.
- Summary of Activities and Labs:** Maximize your study time with this complete list of all associated exercises at the end of each chapter.
- Check Your Understanding:** Evaluate your readiness with the end-of-chapter questions that match the style of questions you see in the online course quizzes. The answer key explains each answer.
- Challenge Questions and Activities:** Apply a deeper understanding of the concepts with these challenging end-of-chapter questions and activities. The answer key explains each answer.
- Hands on Labs:** Master the practical hands-on skills of the course by performing all the tasks in the course labs and additional challenge labs included in Part II of the Learning Guide.

Allan Reid is the curriculum lead for CCNA and a CCNA and CCNP instructor at the Centennial College CATC in Toronto, Canada. Jim Lorenz is an instructor and curriculum developer for the Cisco Networking Academy.

How To Look for this icon to study the steps you need to learn to perform certain tasks:

- Interactive Activities:** Reinforce your understanding of topics with more than 30 different exercises from the online course identified throughout the book with this icon. The files for these activities are on the accompanying CD-ROM.
- Packet Tracer Activities:** Explore and visualize networking concepts using Packet Tracer exercises interspersed throughout most chapters. The files for these activities are on the accompanying CD-ROM.
- Packet Tracer v4.1 software:** Developed by Cisco, is available separately.
- Hands on Labs:** Master the practical hands-on skills of the course by working through all 42 course labs and 3 additional labs included in this book. The labs are an integral part of the CCNA Discovery curriculum; review the core text and the lab material to prepare for all your exams.
