Citizens Without Rights Citizens Without Rights:

Citizens' Rights and the Right to Be a Citizen Ernst Hirsch Ballin, 2014-01-23 Ernst Hirsch Ballin discusses the significance of citizens rights against the backdrop of ongoing migration and urbanization in the beginning of the 21st century The traditional view that each state has the sovereign power to give or withhold citizenship puts the full enjoyment of human rights at risk whenever exclusion is based on differences in nationality Citizens rights are the essential connecting link between human rights and life in a democratic society Citizens have an individual right as a citizen to take part in the democratic process and in the structures of solidarity of the state where they are effectively at home By recognizing everyone's right to the citizenship of the state in which they can make these rights a reality citizens rights can bridge the gap between the universality of human rights and the changing political and social settings of people's lives Limits on dual citizenship are counterproductive European citizenship paves the way for transnational citizenship Hirsch Ballin's book is very important for academics and practitioners in the field of citizenship It embraces the complexity of citizenship with all its academic practical and emotional meanings Hopefully Hirsch Ballin's work can serve as a compass for new directions in immigration and naturalisation debates Katja Swider in *Journal of European Integration* Vol 38 nr 4 2016

The Human Rights of Non-citizens David Weissbrodt, 2008-06-19 Non citizens include asylum seekers rejected asylum seekers immigrants non immigrants migrant workers refugees stateless persons and trafficked persons This book argues that regardless of their citizenship status non citizens should by virtue of their essential humanity enjoy all human rights unless exceptional distinctions serve a legitimate State objective and are proportional to the achievement of that objective Non citizens should have freedom from arbitrary arrest arbitrary killing child labour forced labour inhuman treatment invasions of privacy refoulement slavery unfair trial and violations of humanitarian law Additionally non citizens should have the right to consular protection equality freedom of religion and belief labour rights for example as to collective bargaining workers compensation healthy and safe working conditions etc the right to marry peaceful association and assembly protection as minors social cultural and economic rights There is a large gap however between the rights that international human rights law guarantee to non citizens and the realities they face In many countries non citizens are confronted with institutional and endemic discrimination and suffering The situation has worsened since 11 September 2001 as several governments have detained or otherwise violated the rights of non citizens in response to fears of terrorism This book attempts to understand and respond to the challenges of international human rights law guarantees for non citizens human rights

The Oxford Handbook of Citizenship Ayelet Shachar, Rainer Bauboeck, Irene Bloemraad, Maarten Vink, 2017-08-03 Contrary to predictions that it would become increasingly redundant in a globalizing world citizenship is back with a vengeance The Oxford Handbook of Citizenship brings together leading experts in law philosophy political science economics sociology and geography to provide a multidisciplinary comparative discussion of different dimensions of citizenship as legal status and political membership as

rights and obligations as identity and belonging as civic virtues and practices of engagement and as a discourse of political and social equality or responsibility for a common good The contributors engage with some of the oldest normative and substantive quandaries in the literature dilemmas that have renewed salience in today's political climate As well as setting an agenda for future theoretical and empirical explorations this Handbook explores the state of citizenship today in an accessible and engaging manner that will appeal to a wide academic and non academic audience Chapters highlight variations in citizenship regimes practiced in different countries from immigrant states to non western contexts from settler societies to newly independent states attentive to both migrants and those who never cross an international border Topics include the selling of citizenship multilevel citizenship in between statuses citizenship laws post colonial citizenship the impact of technological change on citizenship and other cutting edge issues This Handbook is the major reference work for those engaged with citizenship from a legal political and cultural perspective Written by the most knowledgeable senior and emerging scholars in their fields this comprehensive volume offers state of the art analyses of the main challenges and prospects of citizenship in today's world of increased migration and globalization Special emphasis is put on the question of whether inclusive and egalitarian citizenship can provide political legitimacy in a turbulent world of exploding social inequality and resurgent populism

Citizenship and Social Rights Fred Twine, 1994-09-06 This broad ranging text offers an analysis of the idea of citizenship and its relevance to social problems and social policies in advanced industrial societies Twine demonstrates that two concepts are essential to an understanding of the issue of citizenship the socially embedded nature of human agents and their interdependence both with each other and with the natural and social worlds they inhabit Twine emphasizes the social nature of individual needs and individual rights He shows that interdependence is not limited to the mutual linkages within advanced industrial societies but extends both to the relations between advanced and developing nations and to the environmental contexts of human existence

The Human Right to Citizenship Barbara von Rütte, 2022-12-28 The open access publication of this book has been published with the support of the Swiss National Science Foundation This book offers a comprehensive analysis of the right to citizenship in international and regional human rights law It critically reflects on the limitations of state sovereignty in nationality matters and situates the right to citizenship within the existing human rights framework It identifies the scope and content of the right to citizenship by looking not only at statelessness deprivation of citizenship or dual citizenship but more broadly at acquisition loss and enjoyment of citizenship in a migration context Exploring the intersection of international migration human rights law and belonging the book provides a timely argument for recognizing a right to the citizenship of a specific state on the basis of one's effective connections to that state according to the principle of *jus nexi*

Dual Citizenship in Europe Thomas Faist, 2016-04-29 In an age of terrorism and securitized immigration dual citizenship is of central theoretical and political concern The contributors to this timely volume examine policies regarding dual citizenship across Europe covering a wide spectrum of

countries The case studies explore the negotiated character and boundaries of political membership and the fundamental beliefs and arguments within distinct political cultures and institutional settings which have shaped debates and policies on citizenship The analyses explore the similarities and differences in the politics of dual citizenship to identify the dominant terms of public debates within and across selected immigration and emigration states in Europe The research demonstrates that policies on dual citizenship are not simply explained by different concepts of nationhood Instead concepts of societal integration which may well be contested in a given polity are extremely influential

The Black Grapevine Linda Briskman,2003 The Black Grapevine tells the extraordinary story of Indigenous efforts to stop children becoming part of the stolen generations and to end the government policies and practices which destroyed their families Linda Briskman uses the story of the Secretariat of National Aboriginal and Island Child Care SNAICC to centre her book Indigenous people involved tell how they came together to form a national organisation for child care how they found similar experiences from one end of Australia to the other how they pooled experience and emotion to provide support for one another how they lobbied for a national inquiry And they campaigned Indigenous activists fought with astonishing resilience for recognition of past and present practices for the right to have Indigenous viewpoints to the forefront and for resources Briskman s story goes beyond the contest with the state to give a convincing portrait of the ways in which Indigenous groups worked There are connections with international action educational and fund raising projects and the much vaunted annual Aboriginal and Islander Children s Day She concludes by reflecting on the successes of campaigns and actions to date and the extent of unfinished business Her strong academic background combines with the oral testimony of the activists to produce a fast moving book that is both entertaining and rigorous

Russian Citizenship Eric Lohr,2012-10-31 In the first book to trace the Russian state s citizenship policy throughout its history Lohr argues that to understand the citizenship dilemmas Russia faces today we must return to the less xenophobic and isolationist pre Stalin period before the drive toward autarky after 1914 eventually sealed the state off from Europe

The Europeanization of Citizenship Fiorella Dell'Olio,2017-05-15 The connection between immigration and citizenship in Europe is an increasingly important issue This timely and informative book investigates three main aspects of the issue the degree to which European citizenship encourages the development of a European identity the impact of European citizenship at the nation state level in Italy and the UK in regard to domestic policy making in the areas of immigration and citizenship and what is needed to make a supranational citizenship work in practice Fiorella Dell Olio examines changes in laws on citizenship nationality and immigration in Italy and the UK and assesses the relationship between the political conceptualization of European citizenship and the public response as revealed by opinion polls She argues that the establishment of a European citizenship has reinforced the ideology of nationality in both Italy and the UK and that it consequently has failed to forge a European identity

Citizenship Elizabeth F. Cohen,Cyril Ghosh,2019-07-09 Although we live in a period of unprecedented globalization and mass migration many contemporary

western liberal democracies are asserting their sovereignty over who gets to become members of their polities with renewed ferocity Citizenship matters more than ever In this book Elizabeth F Cohen and Cyril Ghosh provide a concise and comprehensive introduction to the concept of citizenship and evaluate the idea s continuing relevance in the 21st century They examine multiple facets of the concept including the classic and contemporary theories that inform the practice of citizenship the historical development of citizenship as a practice and citizenship as an instrument of administrative rationality as well as lived experience They show how access to a range of rights and privileges that accrue from citizenship in countries of the global north is creating a global citizenship based caste system This skillful critical appraisal of citizenship in the context of phenomena such as the global refugee crisis South North migration and growing demands for minority rights will be essential reading for students and scholars of citizenship migration studies and democratic theory
