Kaufman, 2015-05-22 The Routledge International Handbook of Research on Teaching Thinking is a comprehensive guide to research on teaching thinking Teaching thinking is key to growing a more successful economy is needed for increased democratic engagement and is vital for the well being of individuals faced with the complexity of a globalised world However there are questions about what we mean by thinking how best to teach it and how best to assess it and it is these questions that this handbook explores and addresses Containing surveys and summaries of international cutting edge research on every aspect of teaching thinking in a range of contexts the handbook is thorough in its delivery examining many different approaches and methods to help readers understand what teaching thinking is and how we can best take this movement forward Key topics include Theoretical

perspectives on teaching thinking Approaches for teaching thinking Developing creative thinking Developing critical thinking and metacognition The assessment of thinking Teaching thinking in the context of STEM Collaborative thinking and new technology Neuro educational research on teaching thinking This book is an essential guide for policy makers teachers and researchers who are interested in teaching thinking

Perspectives on Multigrade Teaching Linley Cornish, Matshidiso Joyce Taole, 2021-10-25 This book contains the results of research projects carried out in relation to multigrade teaching in Australia and South Africa Research in multigrade contexts is not commonly reported and rarely in book form The research results have implications for multigrade teachers government education personnel and university teacher educators The book also contains chapters with practical advice for multigrade teachers including examples of multigrade teaching used in an Australian seven grade class kindergarten to grade 6 Other chapters contain suggestions for practical strategies a multigrade teacher can use to reduce the workload involved in planning for multiple grades Very little is published in the area of multigrade teaching yet the number of multigrade schools worldwide is huge Developed countries still have a significant proportion of multigrade schools commonly one fifth to one third of all primary schools or classes Despite decades of centralisation of schools and expansion of transport networks the number of these schools remains high mostly in rural areas Developing countries established multigrade schools in rural areas in order to achieve the UN Millennium Development Goal of Universal Primary Education Yet specific training to teach a multigrade class remains virtually non existent in initial teacher education programs worldwide The value of this book is thus to report specific research carried out in multigrade contexts but also to provide practical help for multigrade teachers This help is needed as the teachers strive to achieve the UN Sustainable Development Goal of a quality education through helping their students develop the skills and behaviours required for 21st century learning
