Charting Chinas Future Domestic And International Challenges 2011 08 11:

Forecasting China's Future Roger Irvine, 2015-06-26 China's future development is likely to have a huge impact on twenty first century global outcomes. It is therefore surprising that thus far so little attention has been given to comparing and evaluating expert forecasts of China's future in the post Mao era. This book presents an illuminating and comprehensive summary record of contrasting and competing expert forecasts and judgements about the major issues confronting China within four principal domains: political, economic, environmental and international. After considering the principal forecasting methods available to experts, the author comments critically on the degree of success achieved in using those methods and emphasises the confusion created by the polarisation of opinion and by the failure of many experts to accept the high degree of uncertainty that characterises most of the key issues. The book recommends a new approach based on the study of a hierarchy of critical uncertainties and on continuing analysis of opposing expert opinions about these uncertainties. It emphasises the potential for both positive and negative outcomes for these critical uncertainties and the importance of maximising the potential for positive outcomes through improved analytical and policy frameworks. Providing insights for specialists and non specialists into the most critical issues that will determine China's future direction, this book will be of particular interest to students and scholars of political, economic, environmental and international relations issues in China and Asia, as well as to readers in business and government.

Critical Readings on the Communist Party of China (4 Vols. Set) Kjeld Erik Brodsgaard, 2016-12-12 The Chinese Communist Party (CCP) with nearly 90 million members is the largest ruling political party in the world. Its power and influence reach into every corner of state, society and economy in China. Given the CCP's omnipresence, in-depth knowledge of how the CCP is organised and managed and how it will likely evolve is of paramount importance and is a basic prerequisite for understanding China's rise. By bringing together the best scholarship on the CCP covering areas such as organisation, cadre management, recruitment and training, ideology and propaganda, factions and elites, reform and adaptation, corruption and law, this collection provides a key to open the black box of Chinese politics.

China's Challenge to US Supremacy John G. Glenn, 2017-02-27 This book analyzes China's development in the wider context of the global trade, investment, security, knowledge and production regimes established by the United States. It argues that although China has thus far been able to enjoy rapid growth within this global architecture, it will have to deal with a more challenging external environment as other states react to its rise. More specifically, it is facing growing pressure to realign its currency, a greater number of trade, investment and intellectual property disputes, a more hostile security environment and exclusionary regional Trans-Pacific and Trans-Atlantic trade agreements. It is also being confronted by an array of internal issues, from an ageing population and weaknesses in the high-tech sector to over-reliance on foreign companies for exports, non-performing loans and a burgeoning state debt. This in turn has led an increasing number of firms to relocate to other countries. For the time being, the author concludes, China's global ambitions and

challenge to US supremacy will have to be scaled back This insightful work will appeal to students and scholars of China's politics economy and development

Worldviews of Aspiring Powers Henry R. Nau,Deepa M. Ollapally,2012-10-03

Worldviews of Aspiring Powers provides a serious study of the domestic foreign policy debates in five world powers who have gained more influence as the US's has waned China Japan India Russia and Iran Featuring a leading regional scholar for each essay each essay identifies the most important domestic schools of thought nationalists realists globalists idealists exceptionalists and connects them to the historical and institutional sources that fuel each nation's foreign policy experience While scholars have applied this approach to US foreign policy this book is the first to track the competing schools of foreign policy thought within five of the world's most important rising powers Concise and systematic Worldviews of Aspiring Powers will serve as both an essential resource for foreign policy scholars trying to understand international power transitions and as a text for courses that focus on the same

The Subtle Logics of Knowledge Conflicts in China's Foreign

Enterprises Constanze Wang,2016-05-04 This book investigates knowledge interactions in China's foreign enterprises It reveals that cultural differences strongly account for knowledge related obstacles namely knowledge leakage and insufficient knowledge sharing Contrary to conventional wisdom however widespread cultural arguments such as Confucianism or collectivism hardly apply to Chinese employees handling of knowledge In fact more subtle cultural logics are relevant in daily work which are connected to the perceived stability of the enterprise itself But these usually go unnoticed Thus rather than being distracted by a national Chinese culture managers can take real action to solve knowledge conflicts in their particular enterprise

China Goes Global David Shambaugh,2013-01-18 Eminent China scholar David Shambaugh's China Goes Global is the sweeping synthesis of that nation's growing prominence on the world stage that we have been waiting for Thirty years ago China's role in global affairs beyond its immediate East Asian periphery was decidedly minor Its military was extremely weak and it had little geostrategic power As Shambaugh charts though China's expanding economic power has allowed it extend its reach and influence virtually everywhere After establishing the main precondition the astounding growth of the Chinese economy Shambaugh turns his focus to the manifestations of China's global ambitions its growing military power characterized best by its current pursuit of a blue water navy its increasing cultural influence i.e. soft power and its new prominence in global governance institutions like the G 20 He is no alarmist however Rather he will draw on his extremely deep knowledge of the subject to offer a balanced and well reasoned account of where China is now and where he thinks it is headed

China's Foreign Policy Contradictions Tim Nicholas Rühlig,2022 China's rise to great power status is indisputable but can it shape the future international order This question remains widely debated because China's foreign policy is contradictory Contrary to conventional wisdom this book shows that China does not act from a position of strength but that foreign policy contradictions are the result of the domestic vulnerabilities of the ruling Chinese Communist Party Providing exceptional insights into the considerations behind the opaque institutional structures of Chinese foreign

policymaking and decision making it shows that China will not provide a model for a new international system but could undermine the existing order **A Cautious New Approach** Denghua Zhang, 2020-03-20 As a student of international relations and a former diplomat Zhang brings the insights of a practitioner and the eye of scholar to explain why Chinese actors choose to engage in aid cooperation with traditional donors in the Asia Pacific This book is among the first to take a holistic approach to understanding the motivations of the many agencies involved in China's aid program and it will challenge the expectations of many readers Dr Graeme Smith The Australian National University This book breaks new ground by examining a little known dimension of China's foreign policy trilateral aid cooperation Denghua Zhang sets this highly original analysis in the context of the new assertiveness of Chinese foreign policy under Xi Jinping the China International Development Cooperation Agency established in 2018 and the Belt and Road Initiative which now serves as the framework for Chinese overseas aid and engagement At a time when the debate in the West about the rise of China has intensified not always knowledgeably this book fills an important gap in our understanding of China in Southeast Asia and the Pacific Dr Stewart Firth The Australian National University This thoroughly researched work examines trilateral cooperation as a new and interesting aspect of China's growing international aid program and as a window into the changing nature of that program as well as the wider foreign policy in which it is embedded The broad themes and topics discussed are clearly significant ultimately touching on one of the most important international issues of our time the implications of the rise of China for a long established Western dominated international system Prof Terence Smith Wesley University of Hawai i

Sino-Japanese Relations After the Cold War Michael Yahuda, 2013-10-01 Since the end of the Cold War China and Japan have faced each other as powers of relatively equal strength for the first time in their long history As the two great powers of East Asia the way they both compete and cooperate with each other and the way they conduct their relations in the new era will play a big part in the evolution of the region as a whole This textbook will explore in detail the ways in which politics has shaped the thinking about history and identity in both China and Japan and explain the role political leadership in each country has played in shaping their respective nationalisms Michael Yahuda traces the evolution of the relationship over the two decades against the framework of a rising China gaining ground on a stagnant Japan and analyzes the politics of the economic interdependence between the two countries and their cooperation and competition in Southeast Asia and in its regional institutions Concluding with an examination of the complexities of their strategic relations and an evaluation of the potentialities for conflict and co existence between the two countries this is an essential text for students and scholars of Sino Japanese and East Asian International Relations **Social Mobilisation in Post-Industrial China** Jia Gao, Yuanyuan Su, 2019 In recent years China has experienced intense economic development Previously a rapidly urbanising industrial economy the country has become a post industrial economy with a service sector that accounts for almost half the nation's GDP This transformation has created many socio political changes but key among them is social mobilisation This book

provides a full and systematic analysis of social mobilisation in China and how its use as part of state capacity has evolved
