The Challenge for Business and Society Stanley S. Litow,2018-05-09 A roadmap to improve corporate social responsibility The 2016 U S Presidential Campaign focused a good deal of attention on the role of corporations in society from both sides of the aisle In the lead up to the election big companies were accused of profiteering plundering the environment and ignoring even exacerbating societal ills ranging from illiteracy and discrimination to obesity and opioid addiction Income inequality was laid squarely at the feet of us companies The Trump administration then moved swiftly to scrap fiscal social and environmental rules that purportedly hobble business to redirect or shut down cabinet offices historically protecting the public good and to roll back clean power consumer protection living wage healthy eating initiatives and even basic public funding for public schools To many eyes and the lens of history this may usher in a new era of cowboy capitalism with big companies unfettered by regulation and encouraged by the presidential bully pulpit free to go about the business of making money no matter the consequences to consumers and the commonwealth While this may please some companies in the short term the long term consequences might result in just the opposite And while the new administration promises to reduce foreign aid and the social safety net Stanley S Litow believes big companies will be motivated to step up their efforts to create jobs reduce poverty improve education and health and address climate change issues both domestically and around the world For some leaders in the private sector this is not a matter of public relations or charity It is integral to

their corporate strategy resulting in creating new markets reducing risks attracting and retaining top talent and generating growth and realizing opportunities Through case studies many of which the author spearheaded at IBM The Challenge for Business and Society provides clear guidance for companies to build their own corporate sustainability and social responsibility plans positively effecting their bottom lines producing real return on their investments This book will help Create an effective corporate social responsibility and sustainability plan Provide long term bottom line benefit Protect and enrich brand value Recruit and retain top talent Perfect for CEOs CFOs Human Resource Corporate Affairs executives but also for government and not for profit leaders this book helps you come up with a solid plan for giving back to society producing real sustainable value

The Chicago Marathon Andrew Suozzo, 2024-03-18 Received the Hal Higdon Journalism Award recognizing serious journalism about running from the Chicago Area Runners Association CARA 2007 The first book length study of the city's great annual contest In The Chicago Marathon Andrew Suozzo reveals this citywide ritual as far more than a simple race Providing a full spectrum look at the event's production and participants Suozzo shows how the elements that comprise the marathon also reflect modern Chicago's politics its people and the ways the city engages with the wider world The book encompasses all of the forces that come together to make the race the spectacle it has become today Beginning with a brisk history of the marathon Suozzo leads readers from its origins in Greek mythology to its modern reality and also along its rocky road to international prominence He investigates the roles of sponsorship small business support and the city's intervention on behalf of the marathon as well as the alliances the event has forged with the media and charity fundraisers He also discusses race management and the grassroots support that ultimately make it possible with a special perspective on the aid station directors and volunteers Finally The Chicago Marathon features numerous interviews with the runners themselves ranging from world renowned professional athletes to amateurs with diverse backgrounds and abilities
