Checklist Library Building Design Considerations:

Checklist of Library Building Design Considerations William W. Sannwald, 2009-01-12 Guides librarians and other members of a building design team through the stages of the design process The checklist format provides a clear concise way of itemizing the issues helping your construction project run as smoothly as possible [Checklist of Library Building Design Considerations](#) William W. Sannwald, Robert S. Smith, 1988 This checklist is designed to provide librarians architects and other members of a building design team with a list of questions to ask during the design phase of a new or remodeled library building project The purpose of the questions is to make sure that no element of the building is overlooked by the building design team in their programming of spaces While the list of questions on this checklist is probably not exhaustive answering them should ensure that no major design elements have been excluded in planning The scope of this checklist includes library site selection building planning and architecture accessibility for handicapped persons interior organization of library buildings for circulation children s services young adult services reference facilities bookstacks and shelving seating non public areas and convenience facilities decoration of interiors ventilation air conditioning and lighting communications and electrical equipment and environment security systems mechanicals and noise control maintenance of the library building and property and providing for future modifications Space is provided for responses to and comments on these questions MAB

Checklist of Library Building Design Considerations William W. Sannwald, Library Administration and Management Association. Buildings & Equipment Section. Architecture for Public Libraries Committee, 2001 Building new libraries **IFLA Library Building Guidelines: Developments & Reflections** Karen Latimer, Hellen Niegaard, 2008-11-03 The information society and the information age are changing library services as well as library premises This raises questions about what needs to be considered when planning and designing new library buildings in order to achieve attractive efficient and future oriented new library spaces This new publication provides information and guidelines for the building planning process whether you are planning a new public or academic library building It reflects on fundamental issues on new development trends and on the planning process The library building process is seen from both the library manager s perspective as well as that of the architect and designer Issues covered include what to consider when investigating the need for space library design from a marketing viewpoint green management and sustainability relating to library buildings and a layman s guide to reading plans This publication and the IFLA guidelines provided are not seen as a traditional set of recommendations to be rigidly adhered to since this would be unrealistic in a fast changing and global context Rather library managers and architects should read them in order to inform their thinking on key issues and establish a planning programme They must then relate them to their own countries and circumstances by making the relevant local adjustments **The Academic Library Administrator's Field Guide** Bryce Nelson, 2014-06-13 The daily administration of an academic library often leaves you needing quick advice on the topic at hand Nelson an experienced

administrator writing from first hand knowledge delivers such advice in 30 topical chapters
