Novel Definitions Cheryl L. Nixon, 2008-12-30 *Novel Definitions* captures the lively critical debate surrounding the invention of the English novel showing how the rise of the novel is accompanied by a rise in popular literary criticism. The over 135 pieces here many newly discovered include essays prefaces reviews and sermons written by authors ranging from Aphra Behn to Walter Scott. *Novel Definitions* brings together authors commentary on their work debates concerning the novel's formal qualities and cultural position including who should read novels reviewers definitions of the qualities that make a novel successful and literary historians first attempts to write the history of the novel. *A Theory of Narrative* F. K. Stanzel, 1986-03-13 The purpose of this book is to provide a clear and systematic account of the complexities of fictional narration which result from the shifting relationship in all storytelling between the story itself and the way it is told.

Novels, Rhetoric, and Criticism: A Brief History of Belles Lettres and British Literary Culture, 1680 - 1900

Jack M. Downs, 2022-09-06 Developing a history of the English novel requires the inclusion of a vast range of cultural economic religious social and aesthetic influences. But the role of eighteenth century English rhetorical theory in the emergence of the novel and the critical discourse surrounding that emergence has often been neglected or overlooked. The influence of rhetorical theory in the development of the English novel is undeniable however and changes to rhetorical theory in Britain during the eighteenth century led to the development of a critical aesthetic discourse about the novel in Victorian England. This study argues that eighteenth century belles lettres rhetorical theory played a key role in developing a horizon of expectation concerning the nature and purpose of the novel that extended well into the nineteenth century. There is a connection between the emergence of the English novel eighteenth century rhetorical theory and Victorian novel criticism that has been neglected. This study attempts to recover and articulate that connection.

Narrative Conventions and Race in the Novels of Toni Morrison Jennifer Lee Jordan Heinert, 2012-11-12 This study analyzes the relationship between race and genre in four of Toni Morrison's novels *The Bluest Eye* *Tar Baby* *Jazz* and *Beloved*. Heinert argues how Morrison's novels revise conventional generic forms such as bildungsroman folktales slave narratives and the formal realism of the novel itself. This study goes beyond formalist analyses to show how these revisions expose the relationship between race conventional generic forms and the dominant culture. Morrison's revisions critique the conventional roles of African Americans as subjects of and in the genre of the novel and re-write roles which instead privilege their subjectivity. This study provides readers with new ways of understanding Morrison's novels. Whereas critics often fault Morrison for breaking with traditional forms and resisting resolution in her novels this analysis shows how Morrison's revisions shift the narrative truth of the novel from its representation in conventional forms to its interpretation by the readers who are responsible for constructing their own resolution or version of narrative truth. These revisions expose how the dominant culture has privileged specific forms of narration in turn these forms privilege the values of the dominant culture. Morrison's novels attempt to undermine this

privilege and rewrite the canon of American literature

A Natural History of the Romance Novel Pamela

Regis, 2013-08-31 The romance novel has the strange distinction of being the most popular but least respected of literary genres. While it remains consistently dominant in bookstores and on best seller lists, it is also widely dismissed by the critical community. Scholars have alleged that romance novels help create subservient readers who are largely women by confining heroines to stories that ignore issues other than love and marriage. Pamela Regis argues that such critical studies fail to take into consideration the personal choice of readers. She offers any true definition of the romance novel or discusses the nature and scope of the genre. Presenting the counterclaim that the romance novel does not enslave women but on the contrary is about celebrating freedom and joy, Regis offers a definition that provides critics with an expanded vocabulary for discussing a genre that is both classic and contemporary, sexy and entertaining. Taking the stance that the popular romance novel is a work of literature with a brilliant pedigree, Regis asserts that it is also a very old, stable form. She traces the literary history of the romance novel from canonical works such as Richardson's *Pamela* through Austen's *Pride and Prejudice*, Brontë's *Jane Eyre*, and E. M. Hull's *The Sheik*, and then turns to more contemporary works such as the novels of Georgette Heyer, Mary Stewart, Janet Dailey, Jayne Ann Krentz, and Nora Roberts.
