Deforming American Political Thought Ethnicity Facticity And Genre:

Deforming American Political Thought Michael Shapiro, 2006-10-20 By affirming the relativity of the American historical imagination political theorist Michael J Shapiro offers a powerful polemic against ethnocentric interpretations of American culture and politics *Deforming American Political Thought* analyzes issues that range from the nature of Thomas Jefferson's vision of an egalitarian nation to the persistence of racial inequality Shapiro offers a multifaceted argument that transcends the myopic scope of traditional political discourse *Deforming American Political Thought* illustrates the various ways in which history architecture film music literature and art provide approaches to the comprehension of diverse facets of American political thought from the founding to the present Using these seemingly disparate disciplines as a framework Shapiro paints a picture of American political philosophy that is as distinctive as it is enlightening Shapiro explores the historically vital role of dissenting points of view in American politics and asserts its continuing importance in today's political landscape Exploring such diverse works as slave narratives contemporary films genre fiction and blues and jazz music Shapiro reveals that there have always been dissenting voices casting doubt on the moral purpose and exceptionalism of the American mind An unprecedented inquiry into American politics *Deforming American Political Thought* will surely serve to reinvigorate discussions about the essence of American political thought

The Claims of Experience Nolan Bennett, 2019

Autobiography from Frederick Douglass's *Narrative of the Life* to J D Vance's *Hillbilly Elegy* has long been a popular genre that both authors and readers have utilized to understand particular political moments As this book argues such narratives have also contributed to the development of American political thought despite the fact that the field has not taken autobiography seriously as political theory in its own right This book considers the political contexts in which Benjamin Franklin Frederick Douglass Henry Adams Emma Goldman and Whittaker Chambers wrote their autobiographies to better understand not only the political problems to which autobiographical works can be a solution but the broader appeal of such claims of experience to the everyday life of democratic politics

The Time of the City Michael Shapiro, 2010-06-17

Engaging with critical theory poststructuralist perspectives cultural studies film theory and urban studies the book provides stunning insights into the micropolitics of ethnicity identity security subjectivity and sovereignty

Del Casino,

Jr.,2013-06-06 Derrida and the Future of the Liberal Arts highlights the Derridean assertion that the university must exist without condition as a bastion of intellectual freedom and oppositional activity whose job it is to question mainstream society Derrida argued that only if the life of the mind is kept free from excessive corporate influence and political control can we be certain that the basic tenets of democracy are being respected within the very societies that claim to defend democratic principles This collection contains eleven essays drawn from international scholars working in both the humanities and social sciences and makes a well grounded and comprehensive case for the importance of Derridean thought within the liberal arts today Written by specialists in the fields of philosophy literature history sociology geography political science animal studies

and gender studies each essay traces deconstruction's contribution to their discipline explaining how it helps keep alive the unconditional contrapuntal mission of the university The book offers a forceful and persuasive corrective to the current assault on the liberal arts Cinematic Geopolitics Michael J. democracy in colonial dispossession and in turn erase the political and historical presence of native peoples Empire of the People traces this thread through the conceptual and theoretical architecture of American democratic politics in the works of thinkers such as Thomas Jefferson Thomas Paine Alexis de Tocqueville John O Sullivan Ralph Waldo Emerson Daniel Webster Abraham Lincoln Walt Whitman and William Apess In its focus on the disavowal of Native dispossession in democratic thought the book provides a new perspective on the problematic relationship between race and democracy and a different and more nuanced interpretation of the role of settler colonialism in the foundations of democratic culture and society
