Defending The Undefendable Ii Freedom In All Realms:

Defending the Undefendable Ii, 2013 *Defendiendo lo indefendible II* Walter Block, 2014-03-15 Walter Block es un maestro de los casos difíciles. Muchas actividades que son concebidas como seridas y antisociales como el contrabando de drogas o la prostitución no violan los derechos libertarios. Qu deber an opinar los libertarios sobre estas actividades. En lugar de ignorarlas y avergonzarse Walter Block en su clásico *Defendiendo lo indefendible* ofreci sabios e ingeniosos razonamientos en contra de interferir en estas actividades. En *Defendiendo lo indefendible II* libertad en todos los mbitos nos ofrece una magnífica secuela que continúa y amplía su anterior trabajo. Trata con una abundante cantidad de nuevos casos complicados siempre con su característico estilo personal. DAVID GORDON investigador superior del Ludwig von Mises Institute USA. Block ha vuelto. Siguiendo el estilo de *Defendiendo lo indefendible* en este nuevo libro Block aplica incansablemente el análisis libertario a otro cúmulo de divertidos e interesantes casos complicados que van desde el contrabandista hasta el voyeur. ROBERT P MURPHY autor de *Guía políticamente incorrecta del capitalismo* **Water Capitalism** Walter E. Block, Peter L. Nelson, 2015-10-30 Water covers some 75% of the earth's surface while land covers 25% approximately. Yet the former accounts for less than 1% of world GDP the latter 99% plus. Part of the reason for this imbalance is that there are more people located on land than water. But a more important explanation is that while land is privately owned water is unowned with the exception of a few small lakes and ponds or governmentally owned rivers large lakes. This gives rise to the tragedy of the commons when something is unowned people have less of an incentive to care for it preserve it and protect it than when they own it. As a result we have oil spills depletion of fish stocks threatened extinction of some species e.g. whales shark attacks polluted and dried up rivers misallocated water unsafe boating piracy and other indices of economic disarray which if they had occurred on the land would have been more easily identified as the result of the tragedy of the commons and or government ownership and mismanagement. The purpose of this book is to make the case for privatization of all bodies of water without exception. In the tragic example of the Soviet Union the 97% of the land owned by the state accounted for 75% of the crops. On the 3% of the land privately owned 25% of the crops were grown. The obvious mandate requires that we privatize the land and prosper. The present volume applies this lesson in detail to bodies of water. **The Routledge Companion to Libertarianism** Matt Zwolinski, Benjamin Ferguson, 2022-04-28 Have you ever wondered what libertarians think about vaccine mandates. About gun control. About racial and sexual inequalities. While libertarianism is well known as a political theory relating to the scope and justification of state authority the breadth and depth of libertarian work on a wide range of other topics in social and political philosophy is less well known. This handbook is the first definitive reference on libertarianism that offers an in depth survey of the central ideas from across philosophy politics and economics including applications to contemporary policy issues. The forty chapters in this work provide an encyclopedic overview of libertarian scholarship from foundational debates about natural rights theories vs utilitarian approaches to policy debates over

immigration punishment and policing and intellectual property Each chapter presents a comprehensive and up to date overview of historical and contemporary libertarian thought on its subject and thus serves as an essential guide to current scholarship and a starting place for discovering future lines of research The book also contains a section on criticisms of libertarianism written by leading scholars from the feminist republican socialist and conservative perspectives as well as a section on how libertarian political theory relates to various schools of economic thought such as the Chicago Austrian Bloomington and Public Choice schools This book is an essential and comprehensive guide for anyone interested in libertarianism whether sympathizer or critic **The Classical Liberal Case for Israel** Walter E. Block, Alan G. Futerman, 2021-11-02

This book offers a unique perspective on the State of Israel based on classical liberalism both on a historical and theoretical level Specifically it makes a classical liberal and libertarian analysis based upon homesteading and private property rights to defend the State of Israel As such this work explores the history of the Jewish State both to provide a positive case for its right to exist and to clarify the myths surrounding its origin and development At the same time it deals with other relevant related subjects such as the complex situation between Israel and the Palestinian Arabs the military campaigns against the Jewish State the connection between anti Zionism and anti Semitism and Israel s economic miracle The thorough analysis presented in this work intends to show not only why the voices and movements against Israel are wrong including the Boycott Divestment and Sanctions movement BDS but more importantly why Israel is an example of human flourishing and freedom that every advocate for liberty should celebrate The Classical Liberal Case for Israel makes the practical and moral case for Israel It is based on truths and facts that need to be repeated over and over Block Futerman understand that the only way to defeat a big lie is with a big truth Benjamin Netanyahu Prime Minister of the State of Israel Jerusalem Israel Classical Liberalism often associated with the spread West from Northern Europe in creating free nations is argued here as applying to Israel with ancient roots in the principles of human freedom Vernon L Smith Ph D Nobel Prize in Economic Sciences 2002 and Professor George L Argyros Endowed Chair in Finance and Economics Professor of Economics and Law Smith Institute for Political Economy and Philosophy at Chapman University **Space Capitalism** Peter Lothian Nelson, Walter E. Block, 2018-07-06

This book compares and contrasts the motivations morality and effectiveness of space exploration when pursued by private entrepreneurs as opposed to government The authors advocate market driven private initiatives take the lead through enhanced competition and significant resources that can be allocated to the exploration and exploitation of outer space Space travel and colonisation is analysed through the prism of economic freedom and laissez faire capitalism in a unique and accessible book **10 dilemmi morali. Un'introduzione all'etica per problemi** Dario

Berti, 2016-12-28 L etica viene introdotta partendo dall'analisi di alcuni problemi fondamentali *Voci fuori dal coro. Il femminismo libertario americano contemporaneo* Greta Mastroianni Greco, 2025-09-18 Il libertarismo corrente del pensiero politico americano nata in opposizione al New Deal concepisce la libert come diritto individuale fondato sui diritti di proprieta

e vincolato dal Principio di Non Aggressione NAP che proibisce l'uso della forza salvo in caso di difesa o ritorsione. Sostiene inoltre la libertà dal governo, il libero mercato e la responsabilità individuale. Tra la fine degli anni Ottanta e l'inizio degli anni Novanta a questa filosofia politica si aggiunge una prospettiva di genere ed è nato il femminismo libertario. Esso non è riconosciuto da una parte del movimento libertario e la maggior parte degli altri femminismi lo ignorano, lo assimilano a quello liberale o lo criticano come antifemminismo e postfemminismo. Le sue caratteristiche principali sono: l'approccio divulgativo e retrospettivo, l'individualismo, la difesa del capitalismo, l'anti vittimismo, l'antistatalismo e l'atteggiamento cosiddetto sex positive o pro sex rifiutando separatismo e misandria. La sua critica si concentra sul ruolo dello Stato nella limitazione della libertà delle donne, nella loro infantilizzazione e vittimizzazione. Femministe libertarie come Wendy McElroy, Joan Kennedy Taylor, Camille Paglia, Christina Hoff Sommers, Sharon Presley, Nadine Strossen e Cathy Young hanno collegato l'individualismo ai corpi sessuati dimostrando che ce ne sono e ce ne saranno sempre diversi tipi di femminismi e definizioni di libertà. Capitalismo espacial Nelson Peter Lothian, 2025-03-04. Este maravilloso libro compara y contrasta las motivaciones, la moralidad y la eficacia de la exploración espacial cuando la llevan a cabo empresarios privados frente a los gobiernos. Los autores abogan por que las iniciativas privadas impulsadas por el mercado tomen la iniciativa mediante la competencia para la exploración y explotación del espacio exterior. Los viajes espaciales y la colonización se analizan a través del prisma de la libertad económica y el capitalismo del laissez faire en un libro nuevo y accesible.
