I recommend it highly to all of my family, friends, and readers." —ANN RULE

MARY ELLEN O'TOOLE
AND ALISA BOWMAN

Dangerous Instincts Use An Fbi Profilers Tactics To Avoid Unsafe Situations

Mary Ellen O'Toole Ph.D, Alisa Bowman

Dangerous Instincts Use An Fbi Profilers Tactics To Avoid Unsafe Situations:

Dangerous Instincts Mary Ellen O'Toole Ph.D, Alisa Bowman, 2012-09-25 Fear can't help you in a dangerous situation. A former FBI profiler shows you what can. As one of the world's top experts on psychopathy and criminal behavior, Mary Ellen O'Toole has seen repeatedly how relying on the sense of fear alone often fails to protect us from danger. Whether you are opening the door to a stranger or meeting a date you connected with online, you need to know how to protect yourself from harm, physical, financial, legal, and professional. Using the SMART method, which O'Toole developed and used at the FBI, we can confidently know how to respond to a threat in any situation. Hire someone who will work inside your home like a contractor or housekeeper. Figure out whether a prospective employee is a safe bet. Know whom you can trust with your children. An especially useful book for women living alone, parents who are concerned about their children's safety, and employers worried about employees who might go postal. *Dangerous Instincts* gives us the tools used by professionals to navigate potentially hazardous waters. Like *The Gift of Fear* and *The Sociopath Next Door*, it will appeal to anyone looking to make the right call in an ever-threatening world.

Hiding in Plain Sight James F. Kenny, 2019-10-10 This book examines the role of deceptive tactics in the criminal victimization process, showing how various forms of manipulative aggression can help disguise dangerous advances. The author approaches crime victimization as the final stage in a purposeful, predictable, and progressively dangerous process involving interactions between the target and the aggressor. As they prepare for the attack, aggressors may attempt to distract, confuse, and reduce target resistance. While these tactics provide aggressors certain advantages, they can be recognized, anticipated, and managed. By presenting a framework to identify behaviors of concern early in the process, Kenny shows how preventative action can be taken. Proactive intervention may cause aggressors to withdraw before they are fully committed to, and confident in, their ability to be successful. Those who take steps to reduce vulnerabilities, limit risky behaviors, and avoid dangerous situations can help prevent themselves from being victimized.

Library Security Dr. Steve Albrecht, 2015-05-27 Through the methods outlined in this book, Albrecht demonstrates that effective communication not only makes library users feel more comfortable but also increases staff morale, ensuring the library is a place where everyone feels welcome.

Mass and Serial Murder in America Christine M. Sarteschi, 2016-08-18 This timely reference examines the psychological and social phenomena of mass and serial murder, bringing scholarly depth to a frequently sensationalized subject. Its review of the literature features case studies of serial and mass murderers to expand on salient theories of evil, with biopsychosocial profiles highlighting core personality traits, particularly malignant narcissism associated with psychopathy and its often deadly outcomes. The author's insightful analysis separates misconceptions from reality, poses questions for critical thinking and discussion, and offers realistic suggestions for prevention. Public fascination with these violent figures, the mystique of serial killers, and their popularity in the entertainment media is explored as well. Included in the coverage: Public interest in mass and serial murder; Concepts of evil where it comes

from and why people kill Mass murder classification motivation and typologies Serial murder motivation and typologies
Current trends in prevention and areas for improvement Plus instructive case studies both famous and less known Mass and
Serial Murder in America is illuminating reading for undergraduate and graduate students and practitioners in social science
disciplines such as criminal justice criminology social work psychology forensic psychology and related fields It will also find
an audience among educators teaching courses in these areas as well as interested laypersons **The New York Times**
Index ,2004
