Crossing And Dwelling A Theory Of Religion:

Crossing and Dwelling Thomas A. TWEED, 2009-06-30 A deeply researched and vividly written study this book depicts religion in place and in movement dwelling and crossing Drawing on insights from the natural and social sciences Tweed's work is grounded in the gritty particulars of distinctive religious practices even as it moves toward ideas about cross cultural patterns It offers a responsible way to think broadly about religion a topic that is crucial for understanding the contemporary world

Crossings and Dwellings Kyle B. Roberts, Stephen Schloesser, J.S., 2017-07-31 In Crossings and Dwellings Kyle Roberts and Stephen Schloesser S J bring together essays by eighteen scholars in one of the first volumes to explore the work and experiences of Jesuits and their women religious collaborators in North America over two centuries following the Jesuit Restoration Long dismissed as anti liberal anti nationalist and ultramontanist restored Jesuits and their women religious collaborators are revealed to provide a useful prism for looking at some of the most important topics in modern history immigration nativism urbanization imperialism secularization anti modernization racism feminism and sexual reproduction Approaching this broad range of topics from a variety of disciplinary perspectives this volume provides a valuable contribution to an understudied period

Contemporary Theories of Religion Michael Stausberg, 2009-06-19 Interest in theories of religion has never been greater Scholars debate single theoretical approaches in different scholarly journals while the new atheists such as Richard Dawkins and Daniel Dennett criticize the whole idea of religion For everyone eager to understand the current state of the field Contemporary Theories of Religion surveys the neglected landscape in its totality Michael Stausberg brings together leading scholars of the field to review and discuss seventeen contemporary theories of religion As well as scholars of religion it features anthropologists archaeologists classicists evolutionary biologists philosophers and sociologists Each chapter provides students with background information on the theoretician a presentation of the theory's basic principles an analysis of basic assumptions and a review of previous critiques Concluding with a section entitled Back and Forth Stausberg compares the different theories and points to further avenues of discussion for the future

Handbook of the Geographies of Religion Lily Kong, Orlando Woods, Justin K.H. Tse, 2024-12-02 This international and interdisciplinary handbook offers a comprehensive and an in depth overview of contemporary research theory and practice in the geographies of religion in various parts of the world and with different populations The book showcases the major theoretical interventions in the field and the debates about the existential constitution of sacred space and what this means for secularization It outlines the most significant geographical themes related to these new developments with their implications for how to think about landscapes space bodies and worlds The book also discusses the future of the field especially in the realms of encounters and ethics economies and markets institutions and organisations movements and migrations and media and mediums It also offers views from disciplines outside of geography including from sociology anthropology religious studies and media and communications which demonstrates the contributions of geographers of

religion to wider intellectual conversations and debates **Architecture of the World's Major Religions** Thomas Barrie, 2020-08-25 In *Architecture of the World's Major Religions: An Essay on Themes, Differences and Similarities* Thomas Barrie presents and explains religious architecture in ways that challenge predominant presumptions regarding its aesthetic, formal, spatial and scenographic elements. Two positions frame its narrative: religious architecture is an amalgam of aesthetic, social, political, cultural, economic and doctrinal elements, and these elements are materialized in often very different ways in the world's principal religions. Central to the work's theoretical approaches is the communicative and discursive agency of religious architecture and the multisensory and ritual spaces it provides to create and deliver content. Subsequently, mythical and scriptural foundations and symbols of ecclesiastical and political power are of equal interest to formal organizations of thresholds, paths, courts and centers, and celestial and geometric alignments. Moreover, it is equally concerned with the aesthetic, visual and material cultures and the transcendent realms they were designed to evoke, as it is with the kinesthetic, the dynamic and multisensory experience of place and the tangible experiences of the body's interactions with architecture.

Religion as Orientation and Transformation Jan-Olav Henriksen, 2017-05-12 Religions are not primarily expressed in people's heads and their thoughts but in what they do. People use religious symbols in order to orientate or change themselves. In this way, religion is related to all realms of human life. Jan-Olav Henriksen shows that only against this backdrop can we understand the role of religions in human life. Book jacket *The Wiley Blackwell Companion to Religion and Materiality* Vasudha Narayanan, 2020-04-27 The *Wiley Blackwell Companion to Religion and Materiality* provides a thoughtfully organized, inclusive and vibrant project of the multiple ways in which religion and materiality intersect. The contributions explore the way that religion is shaped by and has shaped the material world, embedding beliefs, doctrines and texts into social and cultural contexts of production, circulation and consumption. The Companion not only contains scholarly essays but has an accompanying website to demonstrate the work of performers, architects and expressive artists ranging from musicians and dancers to religious practitioners. These examples offer specific illustrations of the interplay of religion and materiality in everyday life. The project is organized from a comparative perspective, highlighting examples and case studies from traditions originating in both East and West. To summarize the volume brings together the leading figures, theories and ideas in the field in a systematic and comprehensive way. Offers an interdisciplinary approach drawing together religious studies, anthropology, archaeology, history, sociology, geography, the cognitive sciences, ecology and media studies. Takes a comparative perspective covering all the major faith traditions **Sowing the Sacred** Lloyd Daniel Barba, 2022 *Sowing the Sacred* traces the development of Mexican American Pentecostalism among farmworkers from the 1910s to the 1960s, drawing on oral histories, photographs taken by farmworkers and material from new archival collections to tell an intimate story of sacred space making in a context of labor exploitation **The Blackwell Companion to Religion in America** Philip Goff, 2010-03-25 This authoritative and cutting-edge companion brings together a team of leading scholars to

document the rich diversity and unique viewpoints that have formed the religious history of the United States. A groundbreaking new volume which represents the first sustained effort to fully explain the development of American religious history and its creation within evolving political and social frameworks. Spans a wide range of traditions and movements from the Baptists and Methodists to Buddhists and Mormons. Explores topics ranging from religion and the media, immigration and piety, though to politics and social reform. Considers how American religion has influenced and been interpreted in literature and popular culture. Provides insights into the historiography of religion but presents the subject as a story in motion rather than a snapshot of where the field is at a given moment.

Religions in the Modern World Linda Woodhead, Christopher Partridge, Hiroko Kawanami, 2016-01-13

Religions in the Modern World: Traditions and Transformations Third Edition is the ideal textbook for those coming to the study of religion for the first time as well as for those who wish to keep up to date with the latest perspectives in the field. This third edition contains new and upgraded pedagogic features including chapter summaries, key terms and definitions and questions for reflection and discussion. The first part of the book considers the history and modern practices of the main religious traditions of the world while the second analyzes trends from secularization to the rise of new spiritualities. Comprehensive and fully international in coverage, it is accessibly written by practicing and specialist teachers.
