Depth Psychology And A New Ethic:

Depth Psychology and a New Ethic Erich Neumann, 1969 The modern world has witnessed a dramatic breakthrough of the dark negative forces of human nature The old ethic which pursued an illusory perfection by repressing the dark side has lost its power to deal with contemporary problems Erich Neumann was convinced that the deadliest peril now confronting humanity lay in the scapegoat psychology associated with the old ethic We are in the grip of this psychology when we project our own dark shadow onto an individual or group identified as our enemy failing to see it in ourselves The only effective alternative to this dangerous shadow projection is shadow recognition acknowledgement and integration into the totality of the self Wholeness not perfection is the goal of the new ethic *Depth psychology and a New ethic, tr* Erich Neumann,

Tiefenpsychologie und neue Ethik. Depth psychology and a new ethic ... Translated by Eugene Rolfe Erich Neumann, 1969

Life and Work of Erich Neumann Angelica Löwe, 2020-05-10 Life and Work of Erich Neumann On the Side of the Inner Voice is the first book to discuss Erich Neumann's life work and relationship with C G Jung Neumann 1905 1960 is considered Jung's most important student and in this deeply personal and unique volume Angelica Löwe casts Neumann's comprehensive work in a completely new light Based on conversations with Neumann's children Ralf Loewenthal Neumann and Professor Micha Neumann Löwe explores Neumann's childhood and adolescent years in Part I including how he met his wife and muse Julie Blumenfeld In Part II the book traces their life and work in Tel Aviv where they moved in the early 1930s amid growing anti Jewish tensions in Hitler's Germany Finally in Part III Löwe analyses Neumann's most famous works This is the first book length discussion of the existential questions motivating Neumann's work as well as the socio historical circumstances pertaining to the problem of Jewish identity formation against rising anti Semitism in the early 20th century It will be essential reading for Jungian analysts and analytical psychologists in practice and in training as well as scholars of Jungian and post Jungian studies and Jewish studies **Jewish Exiles' Psychological Interpretations of Nazism** Avi Hu

Zakai, 2020-08-31 This book examines works of four German Jewish scholars who in their places of exile sought to probe the pathology of the Nazi mind Wilhelm Reich's The Mass Psychology of Fascism 1933 Erich Fromm's Escape from Freedom 1941 Siegfried Kracauer's From Caligari to Hitler A Psychological History of the German Film 1947 and Erich Neumann's Depth Psychology and a New Ethic 1949 While scholars have examined these authors' individual legacies no comparative analysis of their shared concerns has yet been undertaken nor have the content and form of their psychological inquiries into Nazism been seriously and systematically analyzed Yet the sense of urgency in their works calls for attention They all took up their pens to counter Nazi barbarism believing like the English jurist and judge Sir William Blackstone who wrote in 1753 *scribere est agere* to write is to act **Depth Public Relations** Johanna Fawkes, 2022-12-23 Contemporary global culture

rooted in neoliberalism and free market forces increasingly emphasises appearance over substance People and organisations are judged by image and reputation while social media encourages and enables us to develop our own public persona This

book explores the rise of promotional communication with a particular focus on public relations PR and its role Organisations from local charities to multinational corporations employ professional PR staff to manage promotional communication and even public institutions must position themselves in the marketplace to secure funding and approval To what extent has PR contributed to this culture of display this masquerade of emptiness This book argues that the climate crisis demands not more performance but a new approach one of depth public relations This concept builds on ideas not only from public relations but also psychology sociology and philosophy as well as introducing the voices of climate activists and others seeking a deeper relationship with the human and non human worlds The proposed principles of depth public relations offer suggestions for theory and practice with profound implications for PR and related fields and will interest all scholars of the changing communication environment

Bernstein, 2006-02-01 Living in the Borderland addresses the evolution of Western consciousness and describes the emergence of the Borderland a spectrum of reality that is beyond the rational yet is palpable to an increasing number of individuals Building on Jungian theory Jerome Bernstein argues that a greater openness to transrational reality experienced by Borderland personalities allows new possibilities for understanding and healing confounding clinical and developmental enigmas There are many people whose experiences of reality is outside the mainstream of Western culture often they see themselves as abnormal because they have no articulated frame of reference for their experience The concept of the Borderland personality explains much of their experience In three sections this book examines the psychological and clinical implications of the evolution of consciousness and looks at how the new Borderland
