Derrida And Disinterest Derrida And Disinterest:

Derrida and Disinterest Sean Gaston, 2005-04-14 Disinterest has been a major concept in Western philosophy since Descartes Its desirability and importance have been disputed and its definition reworked by such pivotal figures as Nietzsche Shaftesbury Locke and Kant In this groundbreaking book Sean Gaston looks at the treatment of disinterest in the work of two major modern Continental philosophers Jacques Derrida and Emmanuel Levinas He identifies both as part of a tradition obscured since the eighteenth century that takes disinterest to be the opposite of self interest rather than the absence of all interest Such a tradition locates disinterest at the centre of thinking about ethics The book argues that disinterest plays a significant role in the philosophy of both thinkers and in the dialogue between their work In so doing it sheds new light on their respective contributions to moral and political philosophy Moreover it traces the history of disinterest in Western philosophy from Descartes to Derrida taking contributions and in the of major philosopher in both the analytic Anglo American and Continental traditions Locke Shaftesbury Hume Smith Nietzsche Kant Hegel Heidegger Derrida and Disinterest offers a new reading of Derrida a stimulating account of the role and importance of disinterest in the history of Western philosophy and a provocative and original contribution to Continental ethics **Reading Derrida's Of**

Grammatology Sean Gaston, Ian MacLachlan, 2011-06-30 With new readings from nineteen internationally renowned scholars *Reading Derrida's Of Grammatology* is a significant reassessment and informed discussion of Jacques Derrida's landmark 1967 text Since its original publication *Of Grammatology* has had a profound impact on philosophy literary theory and the Humanities in general Through a series of close readings of selected passages by writers from a wide range of disciplines this collection aims to discover anew this important work and its continuing influence The book includes new readings by Gayatri Chakravorty Spivak J Hillis Miller Jean Luc Nancy Derek Attridge Geoffrey Bennington Nicholas Royle *Reading Derrida's Of Grammatology* is an essential book for anyone interested in Derrida's work from readers new to the book to experienced researchers in philosophy literature and the many other disciplines that *Of Grammatology* has transformed over the last forty years **Jacques Derrida's Cambridge Affair** Niall Gildea, 2019-11-20 What is philosophy

A question often asked but usually in an abstract or speculative way Rarely do we find a case of philosophy being determined in the real world However at Cambridge in 1992 this is exactly what happened as a debate took place over the merits or otherwise of awarding an Honorary Doctorate of Letters to the philosopher Jacques Derrida Derrida's supporters argued that his deconstruction of Western traditions of thinking ushered in an important new manner of doing philosophy his detractors dismissed his work as charlatanism philistinism and non philosophy As arguments raged over the validity of introducing the canon of Continental philosophy to the Humanities in British Higher Education the so called Theory Wars Derrida's Cambridge Affair focalized this decisive conflict more than anything else This is the first study of the Cambridge Affair Drawing upon archival and unpublished material little known texts pertaining to the Affair and Derrida's own oeuvre this

original account offers an historical and philosophical reconstruction of this crucial debate evaluating it against the body of work it put on trial

Iconoclasm in Aesthetics Michael Kelly, 2003-09-04 Contemporary theorizing about art is dominated by a clash between two approaches philosophers have characteristically taken the view that art is a vehicle of some universal meaning or truth while art historians and others working in the humanities emphasize the concrete nature and historical particularity of the work of art Is art capable of sustaining these two approaches Or as Kelly argues is art rather determined by its historical particularity If so then if philosophers continue to pursue mainly the universality of art they inadvertently end up exhibiting a disinterest and distrust in art Kelly calls such disinterest and distrust iconoclasm and in this book he discusses four philosophers Heidegger Adorno Derrida and Danto who are ultimately iconoclasts despite their deep philosophical engagement with the arts He concludes by suggesting ways in which iconoclasm in aesthetics can be avoided in the future

New Directions in Philosophical Theology Gavin Hyman, 2018-01-18 At the beginning of a new millennium philosophical theology has become more contested than ever before The appearance of non realist theologies postmodern theologies and the theology of radical orthodoxy has provoked a vibrant debate about the nature of theology itself In what new directions should theology be moving in the wake of the end of modernity For over thirty years Don Cupitt has been provoking theologians to reconsider the nature of their discipline Taking their inspiration from his work and writing in his honour on the occasion of his 70th birthday some of the leading figures in the contemporary theological scene address urgent questions facing theology today and in doing so exemplify the methodological diversity which characterises the contemporary field

Disinterested Pleasure and Beauty Larissa Berger, 2023-07-24 The conception of disinterested pleasure is not only central to Kant's theory of beauty but also highly influential in contemporary philosophical discourse about beauty However it remains unclear what exactly disinterested pleasure is and what role it plays in experiences of beauty This volume sheds new light on the conception of disinterested pleasure from the perspectives of both Kant scholarship and contemporary aesthetics In the first part the focus is on Kant's theory of beauty as grounded on the conception of disinterested pleasure In the second part disinterested pleasure is investigated in the light of contemporary debates on beauty The volume clarifies the meaning role and implications of one of the most influential conceptions in traditional as well as contemporary approaches to beauty

Tales from the Freudian Crypt Todd Dufresne, 2000 A fundamental reassessment of the Freud legend that aims to shake the very foundations of Freud studies

Traversing the Middle Gavin Hyman, 2013-10-10 In recent philosophy theology and critical theory postmodern thought has been much criticized on specifically ethical and political grounds In particular it has been argued that postmodernism has induced passivity and is impotent in the face of the challenges presented by the hegemonic global market In response numerous thinkers have called for the return of the metanarrative or have insisted on the necessity of the domain of the universal In this book Gavin Hyman accepts the diagnosis while contesting the cure Through detailed engagements with the work of Alain

Badiou Slavoj i ek and John Milbank as well as discussions of the work of Simon Critchley Michael Hardt and Antonio Negri Hyman argues that many contemporary thinkers merely invert the problems intrinsic to postmodernism and therefore do not effectively escape them He argues that the ethical and political are best preserved and perpetuated through the negotiating of an ongoing tension between the domains of the universal the particular and the singular To proceed thus would be to traverse the terrain of the middle ethically politically and religiously

Technologies of Life and Death Kelly

Oliver,2013-06-05 The central aim of this book is to approach contemporary problems raised by technologies of life and death as ethical issues that call for a more nuanced approach than mainstream philosophy can provide To do so it draws on the recently published seminars of Jacques Derrida to analyze the extremes of birth and dying insofar as they are mediated by technologies of life and death With an eye to reproductive technologies it shows how a deconstructive approach can change the very terms of contemporary debates over technologies of life and death from cloning to surrogate motherhood to capital punishment particularly insofar as most current discussions assume some notion of a liberal individual The ethical stakes in these debates are never far from political concerns such as enfranchisement citizenship oppression racism sexism and the public policies that normalize them Technologies of Life and Death thus provides pointers for rethinking dominant philosophical and popular assumptions about nature and nurture chance and necessity masculine and feminine human and animal and what it means to be a mother or a father In part the book seeks to disarticulate a tension between ethics and politics that runs through these issues in order to suggest a more ethical politics by turning the force of sovereign violence back against itself In the end it proposes that deconstructive ethics with a psychoanalytic supplement can provide a corrective for moral codes and political clichés that turn us into mere answering machines

Handbook of Cultural

Politics and Education ,2010-01-01 In academia the effects of the cultural turn have been felt deeply In everyday life tenets from cultural politics have influenced how people behave or regard their options for action such as the reconfiguration of social movements protests and praxis in general Many authors writing in this field are known for their scholarship and social activism both of which are arguably guided by principles of cultural politics about the nature of representation and the deployment of power in political discourses The Handbook of Cultural Politics and Education is less an attempt to standardize contemporary educational scholarship and more a collection that engages the problems and promises of recent themes in social and cultural thought which require our attention and demand a response In other words it opens doors to questions rather than convenient answers to difficult educational dilemmas The Handbook is part of the appraisal of an opening created by interdisciplinary writings on such themes as representation civil society cultural struggle subjectivity and media within the context of education Indeed cultural politics troubles traditional frameworks in search of critical explanations concerning education's place within society The contributions in the collection support this endeavor
