Derrida and Feminism Ellen Feder, Mary C. Rawlinson, Emily Zakin, 2015-12-22 The first ever compilation of articles that highlights the intersection of Derridean and feminist theories a work that represents the extensive and diverse response feminist theorists have had to Derrida particularly to the issues of gender identity and the construction of the subject

Changing Difference Catherine Malabou, 2011-09-19 Translated by CAROLYN SHREAD In the post feminist age the fact that woman finds herself deprived of her essence only confirms paradoxically a very ancient state of affairs woman has never been able to define herself in any other way than in terms of the violence done to her Violence alone confers her being whether it is domestic and social violence or theoretical violence The critique of essentialism i e there is no specifically feminine essence proposed by both gender theory and deconstruction is just one more twist in the ontological negation of the feminine Contrary to all expectations however this ever more radical hollowing out of woman within intellectual movements supposed to protect her this assimilation of woman to a being nothing clears the way for a new beginning Let us now assume the thought of woman as an empty but resistant essence an essence that is resistant precisely because it is empty a resistance that strikes down the impossibility of its own disappearance once and for all To ask what remains of woman after the sacrifice of her being is to signal a new era in the feminist struggle changing the terms of the battle to go beyond both essentialism and anti essentialism In this path breaking work Catherine Malabou begins with philosophy asking what is the life of a woman philosopher

Feminist Interpretations of Jacques Derrida Nancy Holland, 2010-11-01 Aandacht voor het werk van Derrida vanuit feministisch perspectief De volgende bijdragen zijn opgenomen Choreographies interview door Jacques Derrida en Christie V McDonald Displacement and the discourse of woman door Gayatri Chakravorty Spivak Ontology and equivocation Derrida's politics of sexual difference door Elizabeth Grosz Deconstruction and feminism a repetition door Peggy Kamuf Toward an ethic of desire Derrida fiction and the law of the feminine door Peg Birmingham Civil disobedience and deconstruction door Drucilla Cornell The force of law metaphysical or political door Nancy Fraser Sentiment recuperated the performative in women's AIDS related testimonies door Kate Mehegan Crossing the boundaries between deconstruction feminism and religion door Ellen T Armour Kolossos the measure of a man's size door Dorothea Olkowski

Deconstruction, Feminist Theology, and the Problem of Difference Ellen T. Armour, 1999-06-15 The term feminism conjures up the promise of resistance to the various forms of oppression women face But feminism's ability to fulfill this promise has been undermined by its failure to deal adequately with the difference that race makes for gender In this book Ellen T Armour forges an alliance between deconstruction and feminist theology and theory by demonstrating deconstruction's usefulness in addressing feminism's trouble with race Armour shows how the writings of Jacques Derrida and Luce Irigaray can be used to uncover feminism's white presumptions so that race and gender can be thought of differently In clear concise terms she explores the possibilities and limitations for feminist theology of Derrida's conception of

woman and Irigaray's multiple woman as well as Derrida's thinking on race and Irigaray's work on religion Armour then points a way beyond the race gender divide with the help of African American theorists such as bell hooks Hortense Spillers and Patricia Hill Collins

Derrida and the Writing of the Body Jones Irwin, 2016-04-22 Michel Foucault refers to 1965-1970 as in philosophical terms the five brief impassioned jubilant enigmatic years This book reinterprets Jacques Derrida's work from this period most especially in *L'écriture et la Différence* Writing and Difference and argues that a transformation takes place here which has been marginalized in readings of his work to date Irwin follows with a look at how the grammatological opening becomes crucial for Derrida's work in the 1970s and beyond incorporating one of his last readings of embodiment from 2000 By drawing our attention to the politics of desire and sexuality this groundbreaking book engages with the work of key continental theorists including Artaud Bataille Nietzsche Heidegger Habermas and Cixous whilst also examining Derrida's relationship with Plato and feminist theory It will appeal to a wide range of readers within the social sciences and philosophy particularly those with interests in gender and sexuality social theory continental thought queer studies and literary theory

Yielding Gender Penelope Deutscher, 2002-01-22 Traditional accounts of the feminist history of philosophy have viewed reason as associated with masculinity and subsequent debates have been framed by this assumption Yet recent debates in deconstruction have shown that gender has never been a stable matter In the history of philosophy female and woman are full of ambiguity What does deconstruction have to offer feminist criticism of the history of philosophy *Yielding Gender* explores this question by examining three crucial areas the issue of gender as troubled deconstruction and feminist criticism of the history of philosophy The first part of the book discusses the work of Judith Butler Jacques Derrida and contemporary French feminist philosophy including key figures such as Luce Irigaray Particular attention is given to the possibilities offered by deconstruction for understanding the history of philosophy The second part considers and then challenges feminist interpretations of some key figures in the history of philosophy Penelope Deutscher sketches how Rousseau St Augustine and Simone de Beauvoir have described gender and argues that their readings of gender are in fact empowered by gender's own contradiction and instability rather than limited by it

Womanizing Nietzsche Kelly Oliver, 2016-02-11 In *Womanizing Nietzsche* Kelly Oliver uses an analysis of the position of woman in Nietzsche's texts to open onto the larger question of philosophy's relation to the feminine and the maternal Offering readings from Nietzsche Derrida Irigaray Kristeva Freud and Lacan Oliver builds an innovative foundation for an ontology of intersubjective relationships that suggests a new approach to ethics

Derrida, Kristeva, and the Dividing Line Juliana De Nooy, 2013-08-21 Both Jacques Derrida and Julia Kristeva have made an enormous impact throughout the humanities with their work on signification identity and difference and yet the nature of the relation between their theories seems oddly indeterminate they have sometimes been regarded as more or less indistinguishable and sometimes as incompatible This book aims at establishing precisely how Kristeva's and Derrida's writings may be articulated tracing intersections and divergences

parallels and discontinuities between them But how do you compare two theories of the production of difference What conception of difference do you use to go about it Any search for a dividing line between Derrida and Kristeva already engages with their preoccupations Should the juxtaposition of these practices be conceived as a face to face confrontation or rather a gap a hiatus Could it be a dialectic or a difference Should it be thought of in terms of Kristeva's work or Derrida's Accessible and lively this book studies the theories on their own terms in terms of one another and with regard to the literary text a privileged object of their attention It demonstrates that the articulation of the theories shifts under different discursive conditions such that a Derridean reading of the relation is unlikely to coincide with a Kristevan interpretation It shows why there is no single answer to the question of how the two fit together And it investigates what is at stake in the strategic uses to which their work is put whether separately or together *Derrida, Responsibility and Politics* Morag Patrick, 2018-10-26 Published in 1997 Jacques Derrida's deconstructive method or deconstructionism is renowned as a species of anarchic free play an antifoundationalism which can only end in a ruinous irrationalism and thereby the denial of all possibility of discrimination or judgement In this book Morag Patrick argues that far from having abandoned critique Derrida's questioning of Western metaphysics responds to an ethical injunction to a duty to recall the necessary incalculability of moral and political responsibility In the first part of the study Patrick examines the philosophical background to and the basic features of deconstruction Derrida is located in a tradition of thinkers for whom the question of the possibility of philosophy is fundamental The deconstructive endeavour is then explained as an attempt to secure a question that would further and transform thinking a question that would no longer be philosophy's question Patrick maintains that Derrida's strategy to this end is not anarchic but rather adheres to strict protocols of reading Subsequently the ethical and political implications of this manner of reading are pursued It is shown that if Derrida undermines the certainty with which we may assume moral and political responsibilities if he establishes the essential excessiveness of responsibility he does so in order to effect judgement and not to annul it *How To Read Derrida* Penelope Deutscher, 2014-04-03 Deconstruction is not neutral It intervenes Jacques Derrida An idiosyncratic and highly controversial French philosopher Jacques Derrida inspired profound changes in disciplines as diverse as law anthropology literature and architecture In Derrida's view texts and contexts are woven with inconsistencies and blindspots that provide us with a chance to think in new ways about among other things language community identity and forgiveness Derrida's suggestions for how to read lead to a new vision of ethics and a new concept of responsibility Penelope Deutscher discusses extracts from the full range of Derrida's work including *Of Grammatology* *Dissemination* *Limited Inc* *The Other* *Heading Reflections on Europe* *Monolingualism of the Other* *Given Time* and *Force of Law*
