Confabulations Eleanor C. Goldstein, Kevin Farmer, 1992 The Link Between Childhood Trauma and Mental Illness

Barbara Everett, Ruth Gallop, 2000-09-21 Each day case managers psychiatric nurses and other mental health professionals interact with adults who have a history of physical and or sexual abuse during childhood Many of these important professionals will often be the first practitioners to hear about a client s background of abuse but they may not have specialized training in understanding and working with survivors of childhood trauma The Link Between Childhood Trauma and Mental Illness gives mental health professionals who are not child abuse specialists knowledge and skills that are especially relevant to their direct service role and practice context It introduces to these practitioners a conceptual bridge between biomedical and psychosocial understandings of mental disorder providing a multidimensional approach that allows professionals to think holistically and connect clients abusive pasts with their present day symptoms and behaviors Building upon this conceptual foundation the book then focuses on direct practice issues including how to ask clients about child abuse the nature of power in the helping relationship the full recovery process effective treatment models client safety issues and ways to listen to client s stories Also included are valuable insights into helping clients who are in a crisis situation the particular needs of male victims of child abuse racial and cultural considerations and the professional s self care Designed to meet the needs of such helping professionals as case managers psychiatric nurses rehabilitation counselors crisis and housing workers occupational and physical therapists family physicians and social workers The Link Between Childhood Trauma and Mental Illness is an accessible and convenient guide to understanding the effects of childhood abuse and incorporating that understanding into direct practice **MARLENE LEMMERMAN V BENJAMIN FEALK; GALE WILLIFORD V IRWIN BIESKE, 449 MICH 56 (1995) ,1995 97839**

repressed memory epidemic of the 1990s The repressed memory movement as a religious sect or cult The Repressed Memory Epidemic will be of interest to researchers and clinicians as well as undergraduate and graduate students in the fields of psychology sociology cultural studies religion and anthropology *Legalizing Misandry* Paul Nathanson, Katherine K. Young, 2006-03-21 Paul Nathanson and Katherine Young believe that this reveals a shift in the United States and Canada to a worldview based on ideological feminism which presents all issues from the point of view of women and in the process explicitly or implicitly attacks men as a class They argue that ideological feminism is silently reshaping law public policy education and journalism *International Handbook of Human Response to Trauma* Arie Y. Shalev, Rachel Yehuda, Alexander C. McFarlane, 2013-11-11 In 1996 representatives from 27 different countries met in Jerusalem to share ideas about traumatic stress and its impact For many this represented the first dialogue that they had ever had with a mental health professional from another country Many of the attendees had themselves been exposed to either personal trauma or traumatizing stories involving their patients and represented countries that were embroiled in conflicts with each other Listening to one another became possible because of the humbling humanity of each participant and the accuracy and objectivity of the data presented Understanding human traumatization had thus become a common denominator binding together all attendees This book tries to capture the spirit of the Jerusalem World Conference on Traumatic Stress bringing forward the diversities and commonalities of its constructive discourse In trying to structure the various themes that arose it was all too obvious that paradigms of different ways of conceiving of traumatic stress should be addressed first In fact the very idea that psychological trauma can result in mental health symptoms that should be treated has not yet gained universal acceptability Even within medicine and mental health competing approaches about the impact of trauma and the origins of symptoms abound Part I discusses how the current paradigm of traumatic stress disorder developed within the historical social and process contexts It also grapples with some of the difficulties that are presented by this paradigm from anthropologic ethical and scientific perspectives **Interpreting Child Sacrifice Narratives** Benjamin Beit-Hallahmi, 2023-03-23 Examining the theme of child sacrifice as a psychological challenge this book applies a unique approach to religious ideas by looking at beliefs and practices that are considered deviant but also make up part of mainstream religious discourse in Judaism Islam and Christianity Ancient religious mythology which survives through living traditions and transmitted narratives rituals and writings is filled with violent stories often involving the targeting of children as ritual victims Christianity offers Abraham's sacrifice and assures us that the only begotten son has died and then been resurrected This version of the sacrifice myth has dominated the West It is celebrated in an act of fantasy cannibalism in which the believers share the divine son's flesh and blood This book makes the connection between Satanism stories in the 1980s the Blood Libel in Europe The Eucharist and Eastern Mediterranean narratives of child sacrifice [The Quest for the Inner Human](#) Steven H. investigating who we are why we have certain feelings and why we do the things we do Are we no more than a vast assembly of nerve cells and their associated molecules Is biology our genetic inheritance destiny or does social upbringing play a crucial role What are the roles played by Nature and by Nurture Are we purely physical beings or is there an aspect that can be called spiritual This thought provoking novel takes you on a journey of intellectual and emotional exploration considering along the way questions that weve all asked ourselves such as Is it true that we only use 10% of our brains Does playing classical music for infants increase their intelligence Do crime rates go up during a full moon Can hypnosis or post hypnotic suggestions make us do something we wouldnt normally do Does subliminal advertising influence us to buy products Are our memories stored indelibly almost like a tape recorder What causes memory lapses as we age Can repressed traumatic memories be recovered through hypnosis Do some people have multiple personalities How can I tell if someone has a neurosis or a psychosis Do men have an inner feminine side and women an inner masculine Are there innate psychological differences between males and females The four main characters in this book will guide you through a diverse and sometimes bewildering world of differing approaches to answering such questions such as Freudian Jungian and Adlerian Humanistic Existential and Transpersonal as well as Cognitive Emotive and Behaviorist Along the way you will learn about the developmental stages proposed by psychologists such as Erikson Kohlberg Piaget and Fowler and even explore some of the questions currently being asked by both neuroscientists and philosophers of the mind Start reading to begin your study of our innermost selves
