Curriculum Epistemicide João M. Paraskeva, 2016-03-10 Around the world curriculum hard sciences social sciences and the humanities has been dominated and legitimated by prevailing Western Eurocentric Anglophone discourses and practices Drawing from and within a complex range of epistemological perspectives from the Middle East Africa Southern Europe and Latin America this volume presents a critical analysis of what the author influenced by the work of Sousa Santos coins curriculum epistemicides a form of Western imperialism used to suppress and eliminate the creation of rival alternative knowledges in developing countries This exertion of power denies an education that allows for diverse epistemologies disciplines theories concepts and experiences The author outlines the struggle for social justice within the field of curriculum as well as a basis for introducing an Itinerant Curriculum Theory highlighting the potential of this new approach for future pedagogical and political praxis Curriculum Epistemicide João M. Paraskeva, 2015 Itinerant Curriculum Theory João

M. Paraskeva, 2024-06-27 This book advances new ways of thinking about emergence and impact of Itinerant Curriculum Theory ICT Written by authors based in Algeria Brazil Chile China Estonia South Korea Spain and the USA the chapters examine the opportunities and challenges paved by ICT in the struggle to open up and decolonize curriculum policies The contributors show how ICT can help us to pave a new way to think about and to do curriculum theory and announce ICT as a declaration of epistemological liberation one that helps to resist Eurocentric dominance The chapters cover topics including ecologies of the Global South education discourse in South Korea China s Curriculum Reform and the history of colonialism in the Middle East Building on the work of Antonia Darder Boaventura de Sousa Santos and others this book posits that the future of the field is the struggle against curriculum epistemicides and this is ultimately a struggle for social justice The book includes a Foreword by the leading curriculum historian William Schubert Professor Emeritus of Curriculum and Instruction at the University of Illinois at Chicago USA **Curriculum Epistemicide , Refiguring Universities in an Age of**

Neoliberalism Louise J. Lawrence, 2021-06-04 This book examines the role of compassion in refiguring the university Plotting a reimagining of the university through care other regard and a commitment to act in response to the suffering of others the author draws on various humanities disciplines to illuminate the potential of compassion in the campus The book asks how the sector can reclaim the university from the tides of neoliberalism inequalities and increased workloads and which moral principles and competencies would need to be championed and instilled to build inclusive citizenship and positive connection with others A value that is too scarcely taught experienced or advocated in contexts of higher education compassion is reframed as an essential pillar of the university and a means to an epistemically just campus and curricula

Reinventing Paulo Freire Antonia Darder, 2017-06-14 One of the most influential critical educators of the twentieth century Paulo Freire challenged those educational inequalities and conditions of injustice faced by oppressed populations In this new edition of *Reinventing Paulo Freire* Antonia Darder re examines his legacy through reflections on Freirean pedagogy

and the narratives of teachers who reinvent his work The fully revised first part provides important historical political and economic connections between major societal concerns and educational questions raised by Freire and their link to the contemporary moment including questions tied to neoliberalism coloniality and educational inequalities At the heart of the book is a critical understanding of how Freire's pedagogy of love can inform in theory and practice a humanizing approach to teaching and learning Powerful teacher narratives offer examples of a living praxis committed to democratic classroom life and the emancipation of subaltern communities The narratives clearly illustrate how Freire's ideas can be put concretely into practice in schools and communities These reflections on Freirean praxis are sure to spark conversation and inspiration in teacher education courses Through a close theoretical engagement of Freire's ideas and key insights garnered from lived experiences the book speaks to the ways Freire can still inspire contemporary educators to adopt the spirit of liberatory pedagogy By so doing Reinventing Paulo Freire is certain to advance his theories in new ways both to those familiar with his work and to those studying Freire for the first time

Ethnography of a Neoliberal School Garth Stahl, 2017-09-13 As a school ethnography this book explores the controversial schooling practices and strategies embedded in charter school management organizations CMOs as well as how these practices influence teaching and learning school leadership teachers professional identities and students understanding of success By theorizing the common practices within the organization Stahl connects current research in neoliberal governance neoliberal structuring of educational policy aspiration and social reproduction in schooling Honing in on the discourse on education reform Stahl demonstrates that a unique blend of neoliberalism and social justice values have permeated the CMO's institutional culture promoting the belief that adopting corporate practices will fix America's schools and ensure equity of opportunity for all The inclusion of institutional texts emails Blackberry messages posters and rubrics balances the personal subjective and inter subjective to capture a blend of neoliberalism and social justice reframing

Confronting Educational Policy in Neoliberal Times Stephanie Chitpin, John P Portelli, 2019-01-08 This volume explores how educational policy is changing as a result of neoliberal restructuring and how these issues affect educators practice Evidence based chapters present a sharp analysis of neoliberal education policy while also offering suggestions and recommendations for future action to bring about change consistent with more robust understandings of democracy Covering issues relating to historical context philosophical assumptions policy implementation accountability teacher professionalism and standardization Confronting Educational Policy in Neoliberal Times critically engages the ways micro and macro neoliberal politics shapes the purposes and implementation of schooling

Unsettling Eurocentrism in the Westernized University Julie Cupples, Ramón Grosfoguel, 2018-08-06 The westernized university is a site where the production of knowledge is embedded in Eurocentric epistemologies that are posited as objective disembodied and universal and in which non Eurocentric knowledges such as black and indigenous ones are largely marginalized or dismissed Consequently it is an institution that produces racism sexism and epistemic violence

While this is increasingly being challenged by student activists and some faculty the westernized university continues to engage in diversity and internationalization initiatives that reproduce structural disadvantages and to work within neoliberal agendas that are incompatible with decolonization This book draws on decolonial theory to explore the ways in which Eurocentrism in the westernized university is both reproduced and unsettled It outlines some of the challenges that accompany the decolonization of teaching learning research and policy as well as providing examples of successful decolonial moments and processes It draws on examples from universities in Europe New Zealand and the Americas This book represents a highly timely contribution from both early career and established thinkers in the field Its themes will be of interest to student activists and to academics and scholars who are seeking to decolonize their research and teaching It constitutes a decolonizing intervention into the crisis in which the westernized university finds itself

Curriculum, Spirituality and Human Rights towards a Just Public Education Rogério C. Venturini, 2023-05-08 Curriculum Spirituality and Human Rights towards a Just Public Education examines the integration of spirituality not religion into U S public education and curriculum The volume challenges celebratory curricularized forms of human rights and frames spirituality as a counter hegemonic human right Drawing on autobiography as inquiry Rog rio Venturini unpacks his spiritual struggles from within and experiences as a progressive spiritual person and educator The volume examines the subjectivity and objectivity of spirituality exploring the lethal social impact triggered by the absence of spirituality at the table of the so called curriculum conversations This volume places the struggle for spirituality in our field as a political struggle and challenges the epistemicidal nature of such conversations Venturini draws on critical anti colonial and decolonial frameworks and argues for an epistemological move towards an itinerant curriculum theory one that responds to the world s endless epistemological diversity and difference by assuming a non derivative non abyssal approach
