CURVEBALL

SPIES, LIES, AND
THE CON MAN WHO
CAUSED A WAR

BOB DRUGIN

"A riveting and important investigation, full of startling and carefully documented detail, laying bare the anatomy of an intelligence failure and its contribution to a catastrophic war."
—STEVE COLL, Pulitzer Prize-winning author of *Ghost Wars*

Curveball Spies Lies And The Con Man Who Caused A War

James R. Arnold, Roberta Wiener

Curveball Spies Lies And The Con Man Who Caused A War:

Curveball Bob Drogin, 2007-10-30 A crucial study in the political manipulation of intelligence understanding how Curveball got us into Iraq will arm us for the next round of lies coming out of Washington Robert Baer author of See No Evil The True Story of a Ground Soldier in the CIA's War on Terrorism Curveball answers the crucial question of the Iraq war How and why was America's intelligence so catastrophically wrong In this dramatic and explosive book award winning Los Angeles Times reporter Bob Drogin delivers a narrative that takes us to Europe the Middle East and deep inside the CIA to find the truth the truth about the lies and self deception that led us into a military and political nightmare Praise for Curveball Just when you thought the WMD debacle couldn't get worse here comes veteran Los Angeles Times national security correspondent Drogin's look at just who got the stories going in the first place Simultaneously sobering and infuriating essential reading for those who follow the headlines Kirkus Reviews In this engrossing account Los Angeles Times correspondent Drogin paints an intimate and revealing portrait of the workings and dysfunctions of the intelligence community Publishers Weekly An insightful and compelling account of one crucial component of the war's origins Had Drogin merely pieced together Curveball's story it alone would have made for a thrilling book But he provides something more a frightening glimpse at how easily we could make the same mistakes again The real value of Drogin's book is its meticulous demonstration that bureaucratic imperative often leads to self delusion Washington Monthly Drogin delivers a startling account of this fateful intelligence snafu Booklist By the time you finish this book you will be shaking your head with wonder or perhaps you will be shaking with anger about the misadventures that preceded the misadventures in Iraq This book is so powerful it almost refutes its subtitle The man called Curveball did not cause a war he became a pretext one among many George F Will

The New Spymasters Stephen Grey, 2015-07-14 The old world of spying dead letter boxes microfilm cameras an enemy reporting to the Moscow Center and a hint of sexual blackmail is history The spymaster's technique has changed and the enemy has too He or she now frequently comes from a culture far removed from Western understanding and is part of a less well organized group The new enemy is constantly evolving and prepared to kill the innocent In the face of this new threat the spymasters of the world shunned human intelligence as the primary way to glean clandestine information and replaced it with an obsession that focuses on the technical methods of spying ranging from the use of high definition satellite photography to the global interception of communications However this obsession with technology has failed most spectacularly with the devastation of the 9 11 attacks In this searing modern history of espionage Stephen Grey takes us from the CIA's Cold War legends to the agents who betrayed the IRA through to the spooks inside Al Qaeda and ISIS Techniques and technologies have evolved but the old motivations for betrayal patriotism greed revenge compromise endure Based on years of research and interviews with hundreds of secret sources Stephen Grey's The New Spymasters is an up to date exposé that shows how spycraft's human factor is once again being used to combat the world's deadliest enemies

The Prosecution of George W. Bush for Murder Vincent Bugliosi, 2008-10-16 Prosecutor argues there is overwhelming evidence President Bush took the nation to war in Iraq under false pretenses and must be held accountable for what he considers to be monumental crimes

War of Necessity, War of Choice Richard N. Haass, 2009-05-05 Richard Haass a member of the National Security Council staff in the George H W Bush administration and the State Department director of policy planning for George W Bush reviews the causes and strategies of the first and second Iraq wars while providing a thoughtful examination of the means and ends of U S foreign policy War of Necessity War of Choice part history part memoir provides invaluable insight into some of the most important recent events in the world Additionally this book provides a much needed compass for how the United States can apply the lessons learned from the two Iraq wars so that it is better positioned to put into practice what worked and avoid repeating what so clearly did not In this compelling honest and challenging book by one of the country s most respected voices on foreign policy Haass s assessments are critical yet fair and carry tremendous weight

[The USA and The World 2020-2022](#) David M. Keithly, 2021-09-15 The World Today Series USA and The World describes not only what happened but puts events in the context of the past and criticizes policy actions as appropriate The result goes deeper than most of what appears in current publications Updated annually and part of the renowned World Today Series USA and the World presents an unusually penetrating look into America and its relationship to the rest of the world The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 16th edition the content is thorough yet perfect for a one semester introductory course or general library reference

Weapons of Mass Destruction Eric A. Croddy, Jeffrey A. Larsen, James J. Wirtz, 2018-10-12 Whether one is interested in learning about anthrax sarin the neutron bomb or any other weapon of mass destruction this thorough and detailed reference is the place to find answers The threat posed by weapons of mass destruction WMD whether nuclear radiological chemical or biological is the number one topic of concern for the intelligence community first responders policymakers and myriad non governmental organizations and many members of the general public This authoritative reference will serve all of those parties by covering the full spectrum of mass casualty weapons The guide will not only enable people to educate themselves but also to separate the truth from the spurious information that abounds The book offers an A to Z listing of major topics making finding information about concepts scientific theories and realities of WMD fast and easy While the framework of WMD goes back centuries the major focus of this reference is on weapons that date from the use of chemical warfare in World War I The book also covers WMD from the early nuclear era World War II the Cold War and the present Syria North Korea etc Each entry is written in a clear accessible style and includes crucial background information making this book an essential resource for both lay readers and specialists Armed with this portable database readers will have the confidence to deal with discuss or write about WMD of all kinds based on an

understanding of relevant concepts policies and scientific fundamentals *To Start a War* Robert Draper, 2021-07-27

Essential one for the ages a must read for all who care about presidential power The Washington Post Authoritative The most comprehensive account yet of that smoldering wreck of foreign policy one that haunts us today LA Times One of BookPage s Best Books of 2020 *To Start a War* paints a vivid and indelible picture of a decision making process that was fatally compromised by a combination of post 9 11 fear and paranoia rank na vet craven groupthink and a set of actors with id es fixes who gamed the process relentlessly Everything was believed nothing was true Robert Draper s fair mindedness and deep understanding of the principal actors suffuse his account as does a storytelling genius that is close to sorcery There are no cheap shots here which makes the ultimate conclusion all the more damning In the spirit of Barbara W Tuchman s *The Guns of August* and Marc Bloch s *Strange Defeat* *To Start A War* will stand as the definitive account of a collective scurrying for evidence that would prove to be not just dubious but entirely false evidence that was then used to justify a verdict that led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing *Vigilance Is Not Enough* Mark M. Lowenthal, 2025-05-06 A broad and deep survey of American intelligence from before the Revolution to the present Every nation has an intelligence apparatus some means by which its top officials acquire needed information on sensitive issues But each nation does it differently influenced by its history its geographical conditions and its political traditions In this book Mark M Lowenthal examines the development of U S intelligence to explain how and why the United States went from having no intelligence service to speak of to being the world s predominant intelligence power almost overnight and he discusses the difficult choices involved in maintaining that dominance in a liberal democracy Lowenthal describes how the lack of a tradition of spycraft both hindered and helped American efforts to develop intelligence services during and after the Second World War He points to the political pragmatism leading to difficult choices with which most intelligence directors operated the constant tension between security and civil liberties in a constitutional democracy the tension between the need for secrecy and the accountability required for democratic governance and the way the growing importance of technology changed both the methods and the objectives of intelligence gathering Far more than simply an episodic history this book offers an analysis of why American intelligence developed as it did and what it has meant for the nation s and the world s politics *Understanding the U.S. Wars in Iraq and Afghanistan* Beth Bailey, Richard H. Immerman, 2015-12-18 Choice Outstanding Academic Title of 2016 Investigates the causes conduct and consequences of the recent American wars in Iraq and Afghanistan *Understanding the United States wars in Iraq and Afghanistan* is essential to understanding the United States in the first decade of the new millennium and beyond These wars were pivotal to American foreign policy and international relations They were expensive in lives in treasure and in reputation They raised critical ethical and legal questions they provoked debates over policy strategy and war planning they helped to shape American domestic politics And they highlighted a profound division among the American people While more than two million

Americans served in Iraq and Afghanistan many in multiple deployments the vast majority of Americans and their families remained untouched by and frequently barely aware of the wars conducted in their name far from American shores in regions about which they know little Understanding the U S Wars in Iraq and Afghanistan gives us the first book length expert historical analysis of these wars It shows us how they began what they teach us about the limits of the American military and diplomacy and who fought them It examines the lessons and legacies of wars whose outcomes may not be clear for decades In 1945 few Americans could imagine that the country would be locked in a Cold War with the Soviet Union for decades fewer could imagine how history would paint the era Understanding the U S Wars in Iraq and Afghanistan begins to come to grips with the period when America became enmeshed in a succession of low intensity conflicts in the Middle East

Understanding U.S. Military Conflicts through Primary Sources James R. Arnold, Roberta Wiener, 2015-11-12 An easily accessible resource that showcases the links between using documented primary sources and gaining a more nuanced understanding of military history Primary source analysis is a valuable tool that teaches students how historians utilize documents and interpret evidence from the past This four volume reference traces key decisions in U S military history from the Revolutionary War through the 21st century conflicts in Afghanistan and Iraq by examining documents relating to military strategy and national policy judgments by U S military and political leaders A comprehensive introductory essay provides readers with the context necessary to understand the relationship between diplomatic documents military correspondence and other documentation related to events that shaped warfare diplomacy and military strategy Once the stage is set the work covers 14 conflicts that are significant to U S history Treatment of each of the conflicts begins with a historical overview followed by a chronology and approximately 30 primary source documents presented in chronological order Each document is accompanied by a description and annotations and by an analysis that highlights its importance to the event or topic under discussion Designed for secondary school and college students the work will be exceptionally valuable to teachers who will appreciate the ready made lessons that fit directly into core curriculum standards

Whispering the Secrets of Language: An Emotional Journey through **Curveball Spies Lies And The Con Man Who Caused A War**

In a digitally-driven world wherever monitors reign supreme and immediate conversation drowns out the subtleties of language, the profound secrets and mental subtleties hidden within phrases often move unheard.
