Condemned To Repeat The Paradox Of Humanitarian Action:

Condemned to Repeat? Fiona Terry, 2013-04-12 Humanitarian groups have failed Fiona Terry believes to face up to the core paradox of their activity humanitarian action aims to alleviate suffering but by inadvertently sustaining conflict it potentially prolongs suffering In *Condemned to Repeat* Terry examines the side effects of intervention by aid organizations and points out the need to acknowledge the political consequences of the choice to give aid The author makes the controversial claim that aid agencies act as though the initial decision to supply aid satisfies any need for ethical discussion and are often blind to the moral quandaries of aid Terry focuses on four historically relevant cases Rwandan camps in Zaire Afghan camps in Pakistan Salvadoran and Nicaraguan camps in Honduras and Cambodian camps in Thailand Terry was the head of the French section of Medecins sans frontieres Doctors Without Borders when it withdrew from the Rwandan refugee camps in Zaire because aid intended for refugees actually strengthened those responsible for perpetrating genocide This book contains documents from the former Rwandan army and government that were found in the refugee camps after they were attacked in late 1996 This material illustrates how combatants manipulate humanitarian action to their benefit *Condemned to Repeat* makes clear that the paradox of aid demands immediate attention by organizations and governments around the world The author stresses that if international agencies are to meet the needs of populations in crisis their organizational behavior must adjust to the wider political and socioeconomic contexts in which aid occurs **Forced**

Migration and Global Processes Francois Crepeau, Delphine Nakache, Michael Collyer, Nathaniel H. Goetz, Art Hansen, 2006-03-28 Migration is at the center of much of the discussion on globalization Migrants move across borders and thus defy state centered traditions Migration is often caused or influenced by aspects of global change the transformation of the world economy with the expansion of free trade the modification of the world balance of power and the challenge of global insecurity the emergence of the global environment as an important political issue and the redefinition of the role of communities in shaping identities when faced with networks of migrants and diasporas *Forced Migration and Global Processes* considers the crossroads of forced migration with three global trends development human rights and security This expert collection studies these complex interactions and aims to help determine what solutions may alleviate most of the human suffering involved in forced migrations

The Paradoxes of Aid Work Silke Roth, 2015-03-24 This book explores what attracts people to aidwork and to what extent the promises of aidwork are fulfilled Aidland is a highly complex and heterogeneous context which includes many different occupations forms of employment and organizations Analysing the processes that lead to the involvement in development cooperation emergency relief and human rights work and tracing the pathways into and through Aidland the book addresses working and living conditions in Aidland gender relations and inequality among aid personnel and what impact aidwork has on the life courses of aidworkers In order to capture the trajectories that lead to Aidland a biographical perspective is employed which reveals that boundary crossing between

development cooperation emergency relief and human rights is not unusual and that considering these fields as separate spheres might overlook important connections Rich reflexive data is used to theorize about the often contradictory experiences of people working in aid whose careers are shaped by geo politics changing priorities of donors and a changing composition of the aid sector Exploring the life worlds of people working in aid this book contributes to the emerging sociology and anthropology of aidwork and will be of interest to professionals and researchers in humanitarian and development studies sociology anthropology political science and international relations international social work and social psychology

Humanitarianism in the Modern World Norbert Götz, Georgina Brewis, Steffen Werther, 2020-07-23 This is an innovative new history of famine relief and humanitarianism The authors apply a moral economy approach to shed new light on the forces and ideas that motivated and shaped humanitarian aid during the Great Irish Famine the famine of 1921 1922 in Soviet Russia and the Ukraine and the 1980s Ethiopian famine They place these episodes within a distinctive periodisation of humanitarianism which emphasises the correlations with politico economic regimes the time of elitist laissez faire liberalism in the nineteenth century as one of ad hoc humanitarianism that of Taylorism and mass society from c 1900 1970 as one of organised humanitarianism and the blend of individualised post material lifestyles and neoliberal public management since 1970 as one of expressive humanitarianism The book as a whole shifts the focus of the history of humanitarianism from the imperatives of crisis management to the pragmatic mechanisms of fundraising relief efforts on the ground and finance This book is also available as Open Access on Cambridge Core

Weiss, 2013-04-24

A singular development of the post Cold War era is the use of military force to protect human beings From Rwanda to Kosovo Sierra Leone to East Timor and more recently Libya to C te d Ivoire soldiers have rescued some civilians in some of the world s most notorious war zones Could more be saved Drawing on over two decades of research Thomas G Weiss answers yes and provides a persuasive introduction to the theory and practice of humanitarian intervention in the modern world He examines political ethical legal strategic economic and operational dimensions and uses a wide range of cases to highlight key debates and controversies The updated and expanded second edition of this succinct and highly accessible survey is neither celebratory nor complacent The author locates the normative evolution of what is increasingly known as the responsibility to protect in the context of the global war on terror UN debates and such international actions as Libya The result is an engaging exploration of the current dilemmas and future challenges for robust international humanitarian action in the twenty first century **The New Humanitarians**

in International Practice Zeynep Sezgin, Dennis Dijkzeul, 2015-12-14 As humanitarian needs continue to grow rapidly humanitarian action has become more contested with new actors entering the field to address unmet needs but also challenging long held principles and precepts This volume provides detailed empirical comparisons between emerging and traditional humanitarian actors It sheds light on why and how the emerging actors engage in humanitarian crises and how their activities are carried out and perceived in their transnational organizational environment It develops and applies a

conceptual framework that fosters research on humanitarian actors and the humanitarian principles In particular it simultaneously refers to theories of organizational sociology and international relations to identify both the structural and the situational factors that influence the motivations aims and activities of these actors and their different levels of commitment to the traditional humanitarian principles It thus elucidates the role of the humanitarian principles in promoting coherence and coordination in the crowded and diverse world of humanitarian action and discusses whether alternative principles and parallel humanitarian systems are in the making This volume will be of great interest to postgraduate students and scholars in humanitarian studies globalization and transnationalism research organizational sociology international relations development studies and migration and diaspora studies as well as policy makers and practitioners engaged in humanitarian action development cooperation and migration issues
