Stagestruck Lauren R. Clay, 2013-02-15 Stagestruck traces the making of a vibrant French theater industry between the reign of Louis XIV and the French Revolution During this era more than eighty provincial and colonial cities celebrated the inauguration of their first public playhouses These theaters emerged as the most prominent urban cultural institutions in prerevolutionary France becoming key sites for the articulation and contestation of social political and racial relationships Combining rich description with nuanced analysis based on extensive archival evidence Lauren R Clay illuminates the wide ranging consequences of theater s spectacular growth for performers spectators and authorities in cities throughout France as well as in the empire s most important Atlantic colony Saint Domingue Clay argues that outside Paris the expansion of theater came about through local initiative civic engagement and entrepreneurial investment rather than through actions or policies undertaken by the royal government and its agents Reconstructing the business of theatrical production she brings to light the efforts of a wide array of investors entrepreneurs directors and actors including women and people of color who

seized the opportunities offered by commercial theater to become important agents of cultural change Portraying a vital and increasingly consumer oriented public sphere beyond the capital Stagestruck overturns the long held notion that cultural change flowed from Paris and the royal court to the provinces and colonies This deeply researched book will appeal to historians of Europe and the Atlantic world particularly those interested in the social and political impact of the consumer revolution and the forging of national and imperial cultural networks In addition to theater and literary scholars it will attract the attention of historians and sociologists who study business labor history and the emergence of the modern French state
