

INTRODUCTION

The New York State Department of Civil Service has developed this test guide to familiarize you with some of the multiple-choice test materials that will be included in the High-Level Custodians/Janitors Series. This test guide provides a general description of the most common subject areas that will be tested and an explanation of the different types of questions you may see on the test.

Not all subject areas tested in this series are covered in this test guide. The examination announcement will list the subject areas that will be included on the particular test you will be taking.

The tests in the series commonly cover the following subject areas:

1. **Ability to read and follow written instructions** – These questions test for the ability to read, understand and apply written instructions for performing tasks similar to those encountered on the job. All the information needed to answer these questions will be provided in the test booklet.
2. **Building cleaning** – These questions test for knowledge of basic principles and practices of building cleaning. They cover such areas as equipment, tools, supplies, methods and procedures for cleaning different types of surfaces and materials under various, commonly occurring circumstances.
3. **Building operation and maintenance** – These questions test for knowledge of the basic principles, practices and techniques essential to the correct operation and maintenance of public buildings. They cover such areas as building maintenance; preventive maintenance, and minor repair of electrical and plumbing systems; methods and equipment for snow removal; building safety and equipment storage.
4. **Operation and routine maintenance of heating, ventilating and air conditioning systems** – These questions test for knowledge of basic principles, practices and techniques essential to the correct operation and maintenance of heating, ventilating and air conditioning systems, including such areas as minor cleaning; room temperature and building ventilation control; steam, hot water, and hot air heating systems; boiler operation; troubleshooting air conditioning system problems, and proper maintenance of air conditioning systems.
5. **Supervision and training** – These questions test for the knowledge required by a supervisor to set goals, plan and organize work, train workers in how to do their jobs, and direct workers towards meeting established goals. The supervisory questions cover such areas as assigning and reviewing work, evaluating performance, maintaining work quality, motivating employees, increasing efficiency, and dealing with problems that may arise on the job. The training questions cover such areas as determining the necessity for training, selecting appropriate training methods, and evaluating the effectiveness of training.

The remainder of this test guide explains how you will be tested in each of the subject areas listed above. A **TEST TASK** is provided for each subject area. This is an explanation of how a question will be presented and how to correctly answer it. Read each explanation carefully. This test guide provides at least one **SAMPLE QUESTION** for each subject area. The sample questions will be similar to what will be presented on the actual test. This test guide provides the **SOLUTION** and correct answer(s) to each sample question. You should study these in order to understand how the correct or best answers were determined.
