Cut And Label Moon Phases:

Science, Grade 1 Holly Rafidi, 2016-01-04 Interactive Notebooks Science for grade 1 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about living and nonliving things, habitats, states of matter, light, soil, weather, and more. This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High interest and hands-on interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience. [Space Activity Lab](#)

DK, 2023-08-22 Uncover the mysteries of space with 25 creative projects and stargazing activities that are out of this world. Discover the wonders of our awe-inspiring universe. If you stare at the stars and wonder what's out there and enjoy practical, hands-on projects, this is the book for you. Each of the super fun make-and-do projects in this book comes with simple step-by-step photographs and instructions that will inspire your imagination and reveal some of the secrets of space. Perfect for kids who are interested in STEM (science, technology, engineering, and math), Space Activity Lab features projects that explore the solar system, asteroids, and from the Milky Way to moon buggies. You'll combine astronomy with art and craft by launching your own rocket, building a moon lander to learn how astronauts touch down safely on the moon's surface, making a pinhole camera to observe a solar eclipse, designing your own orrery to understand how planets orbit the sun, and creating a cardboard model to explore the phases of the moon. And for when darkness falls, there's a star finder section that shows you how to spot incredible constellations in the night sky, from The Big Dipper to Orion. Throughout the book, information boxes full of fascinating facts and panel stories explain the science. Space Activity Lab is the perfect package for creative kids who are interested in exploring the great mysteries of the night sky, infinity, and beyond. [Interactive Notebook: Earth & Space Science, Grades 5 - 8](#)

Schyrl et al. Cameron, Carolyn Craig, 2018-01-02 Encourage students to create their own learning portfolios with Interactive Notebook Earth and Space Science for grades five through eight. This interactive notebook for science students includes 29 lessons in these four units of study: geology, oceanography, meteorology, astronomy. This personalized resource helps students review and study for tests.
