Public Relations Research Ansgar Zerfaß, A. A. van Ruler, Krishnamurthy Sriramesh, 2008-05-08 Introduction Sriramesh Van Ruler Zerfaß Krishnamurthy Sriramesh Betteke van Ruler Ansgar Zerfaß One could make a reasonable argument that public relations is an ancient practice going back millennia although it has been popularly perceived as a 20th century phenomenon Scholarship in public relations however is more recent in origin with a history of less than four decades During these formative years the body of knowledge has expanded significantly which is laudable However there is potential for growth and improvement in many areas of the public relations literature Over the decades among other things public relations scholarship has largely remained parochial to specific regions such as the United States the United Kingdom Latin America German speaking Europe etc as evidenced in the bibliographic references of many essays in this volume itself where authors predominantly cite work from their own regions This is often necessitated by linguistic differences with only English serving as

the universal language that helps permeate knowledge through most regions Pedagogical and methodological factors also have played a role in the regionalization of the body of knowledge However we believe that knowledge flows most when it is shared across different kinds of barriers Globalization has made it essential for us to recognize this reality more than ever This volume tries to bridge the gap and presents theories and concepts from researchers around the world *Effective Public Relations* Glen M.
