Review Questions

Directions: Read the lesson and complete the outline below. Refer to your text to fill in the blanks.

I. Types of Bills and Resolutions

- A. Bills dealing with individual people or places are called private bills, while bills involving general matters that apply to the entire nation are called public bills.
- B. Congress also passes resolutions to make policy on unusual or temporary matters.
- C. A joint resolution resolution is passed in the same form by both houses of Congress, a simple resolution resolution is passed by one house alone and affects matters only in that house, and senate resolutions cover matters requiring the action of the House and Senate but do not need a law.
- D. Lawmakers attach riders to bills that are likely to pass.

II. Introducing a Bill

- A. A bill is introduced in the House or Senate by a member of Congress. The bill is then assigned to a committee. The committee holds hearings and may make changes to the bill. The committee then reports the bill to the full House or Senate.
- B. The bill is then debated in the House or Senate. The floor manager of the bill makes a speech in support of the bill. Other members of Congress may speak in support of or against the bill. The bill is then voted on. If the bill passes, it goes to the other house of Congress.
- C. If the bill passes in both houses, it goes to the President. The President may sign the bill into law or veto it. If the President vetoes the bill, Congress may override the veto with a two-thirds vote in both houses. If the President signs the bill, it becomes law.
