beginner coaches It will strike a chord with anyone who has been on a similar journey or has just begun professional training discovering the disappointments triumphs and surprises of learning to coach and coming to their own personal insights Lis Paice s easy conversational style and rich supply of real life examples make this an enjoyable read even for the absolute beginner The questions she raises about coaching will also stimulate reflection for experienced coaches trainers and supervisors Topics include What coaching is all about How coaching differs from other ways of helping What the role of the coach entails Getting to grips with the principles of coaching Learning by experience why the rules matter Trying out different tools and techniques Finding ways of helping the client to new perspectives and insights Avoiding complacency
