Communication Ethics Connected Andrea Catellani:

An Interdisciplinary Approach to Climate Change Andrea Catellani, Louise-Amélie Cougnon, Øyvind Gjerstad, Armelle Nugier, 2025-09-30 This book offers a comprehensive overview of the ways in which research and perspectives from the social sciences and humanities can be combined for a more effective understanding of climate change and its impacts. Climate change affects all aspects of life influencing personal lifestyle choices and political perceptions. Beyond legal and political measures, the engagement of individuals and local communities has become essential for necessary systemic change. Understanding the complex human and social dynamics is key to achieving real change in favour of a resilient and low carbon future. This book highlights the theoretical and practical contributions of the social sciences and humanities in understanding how humans perceive and respond to climate change and the ways in which they can be combined to fight climate disruption and its effects. These interdisciplinary approaches draw upon fields such as communication sciences, linguistics, psychology, anthropology, educational sciences, management studies, and philosophy to explore the nexus between climate change and human and social dynamics in individual, collective, and political actions. Drawing on a wide range of interesting case studies, the book highlights opportunities for collaboration between disciplines by combining methodological and theoretical components and synthesizing the research results. Ultimately, the book demonstrates that a more effective collaboration between the social sciences and humanities is required to fully understand the complexities of our relationship with climate change and to pave the way to a real ecological transition. The book will be of use to scholars, students, researchers, and practitioners interested in communication studies, psychology, linguistics, sociology, philosophy, management, educational studies, transition studies, and connected fields.

Public Relations Chiara Valentini, 2021-02-08 What is public relations? What do public relations professionals do? And what are the theoretical underpinnings that drive the discipline? This handbook provides an up-to-date overview of one of the most contested communication professions. The volume is structured to take readers on a journey to explore both the profession and the discipline of public relations. It introduces key concepts, models, and theories as well as new theorizing efforts undertaken in recent years. Bringing together scholars from various parts of the world and from very different theoretical and disciplinary traditions, this handbook presents readers with a great diversity of perspectives in the field.

Vers davantage d'éthique en communication Andrea Catellani, Eric Cobut, Christine Donjean, 2017-08-11 Le citoyen est en quête d'authenticité de la part des organisations publiques ou privées, commerciales ou associatives. Il recherche l'intégrité, la transparence, l'impact dans les décisions. Le communicateur au sein de l'organisation se doit de réussir cet exercice périlleux : composer entre ses valeurs, la déontologie, les attentes de sa direction et celles des clients au sens large. Ce livre apporte un éclairage complet face à ce défi tant au niveau des concepts et de la réflexion que de la mise en pratique, mettant entre toutes les mains des passionnés de la communication des responsables RH, des dirigeants de PME et des étudiants.

Visual Public Relations Simon Collister, Sarah

Roberts-Bowman,2018-03-28 This book brings together a broad and diverse range of new and radical approaches to public relations focussing on the increasingly vital role that visual sensory and physical elements factors play in shaping communication Engaging with recent developments in critical and cultural theories it outlines how non textual and non representational forces play a central role in the efficacy and reception of public relations Challenging the dominant accounts of public relations which center on the purely representational uses of text and imagery the book critiques the suitability of accepted definitions of the field and highlights future directions for conceptualizing strategic communication within a multi sensory environment Drawing on the work of global researchers in public relations visual culture and communication design and cultural theory it brings a welcome inter disciplinary approach which pushes the boundaries of public relations scholarship in a global cultural context This exciting analysis will be of great interest to public relations scholars advanced students of strategic communication as well as communication researchers from cultural media and critical studies exploring PR as a socio cultural phenomenon
