Handbook of Interpersonal Competence Research Brian H. Spitzberg,William R. Cupach,2012-12-06 Handbook of Interpersonal Competence Research offers a vital desk reference to anyone doing research on social skills and interaction Interpersonal competence defined broadly refers to the quality or skillfulness of social interaction The reference manual provides a complete and comprehensive bibliography on this subject with over 1 600 entries in addition to a review of over 80 measures directly related to the study of competence The Handbook covers more measures more constellation measures and provides a far more detailed bibliography than any source available to date No other work on this subject approaches the level of breadth and depth of both published and unpublished background sources Handbook of Interpersonal Competence Research will be valuable to clinicians consulting psychologists organizational consultants researchers and students interested in the assessment of social skills Asha American Speech-Language-Hearing Association,1990-08 Aphasia and Its Therapy Anna Basso,2003-01-09 This is the first single authored book to attempt to bridge the gap between aphasia research and the rehabilitation of patients with this language disorder Studies of the deficits underlying aphasia and the practice of aphasia rehabilitation have often diverged and the relationship between theory and practice in aphasiology is loose The goal of this book is to help close this gap by making explicit the relationship between what is to be rehabilitated and how to rehabilitate it Early chapters cover the history of aphasia and its therapy from Broca s discoveries to the 1970s and provide a description of the classic aphasia syndromes The middle section describes the contribution of cognitive neuropsychology and the treatment models it has inspired It includes discussion of the relationship between the treatment approach and the functional model upon which it is based The final chapters deal with aphasia therapy After providing a sketch of a working theory of aphasia Basso describes intervention procedures for disorders resulting from damage at the lexical and sentence levels as well as a more general conversation based intervention for severe aphasics Anna Basso has run an aphasia rehabilitation unit for more than thirty years In this book she draws on her considerable experience to provide researchers clinicians and their students and trainees in speech language pathology and therapy aphasiology and neuropsychology with comprehensive coverage of the evolution and state of the art of aphasia research and therapy

Neurological Rehabilitation Michael P. Barnes,David C. Good,2013-01-10 Neurological Rehabilitation is the latest volume in the definitive Handbook of Clinical Neurology series It is the first time that this increasingly important subject has been included in the series and this reflects the growing interest and quality of scientific data on topics around neural recovery and the practical applications of new research The volume will appeal to clinicians from both neurological and rehabilitation backgrounds and contains topics of interest to all members of the multidisciplinary clinical team as well as the neuroscience community The volume is divided into five key sections The first is a summary of current research on neural repair recovery

and plasticity The authors have kept the topics readable for a non scientific audience and focused on the aspects of basic neuroscience that should be most relevant to clinical practice The next section covers the basic principles of neurorehabilitation including excellent chapters on learning and skill acquisition outcome measurement and functional neuroimaging The key clinical section comes next and includes updates and reviews on the management of the main neurological disabling physical problems such as spasticity pain sexual functioning and dysphagia Cognitive emotional and behavioural problems are just as important and are covered in the next section with excellent chapters for example on memory and management of executive dysfunction The final part draws the sections on symptom management together by discussing the individual diseases that are most commonly seen in neurorehabilitation and providing an overview of the management of the disability associated with those disorders The volume is a definitive review of current neurorehabilitation practice and will be valuable to a wide range of clinicians and scientists working in this rapidly developing field A volume in the Handbook of Clinical Neurology series which has an unparalleled reputation as the world s most comprehensive source of information in neurology International list of contributors including the leading workers in the field Describes the advances which have occurred in clinical neurology and the neurosciences their impact on the understanding of neurological disorders and on patient care **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1982
