Cannabis The Hip History Of Hemp

Rowan Robinson

Cannabis The Hip History Of Hemp:

Cannabis Jonathon Green, 2005 Twelve millennia since it appeared cannabis remains one of the most popular and controversial drugs consumed today This revised paperback edition of the successful Cannabis is an informative and entertaining guide to the history of weed Here one will find a story from ancient myths and legends to today's ongoing controversies that stretches over 12 000 years its many uses spiritual medicinal and recreational in countries all round the globe the laws that have tried to suppress it and the industry both professional and quite literally homegrown that brings the weed to its millions of consumers In addition readers will discover just what makes smokers high and the way cannabis is being rediscovered as a vital painkiller for such diseases as cancer arthritis and multiple sclerosis it lays out the great debate is cannabis really a gateway drug leading users to heroin and crack **The Cannabis Revolution**© Stephen Holt, DSc;MD, 2016-03-24 There is growing public support for the use of cannabis for medical and recreational purposes but what does science say about the matter What we know is that cannabis contains more than four hundred potentially bioactive components and while we are unraveling its secrets the potential medical benefits of using it remain uncertain Dr Stephen Holt a leader in the field of natural medicine examines the issue in detail answering questions such as How can we responsibly use cannabis What are the risks What are the possible positive outcomes Does the delivery method matter How has cannabis changed over time He also examines diseases that cannabis might help treat as well as social and political questions that revolve around using the substance such as whether it should be taxed how it fits into religious practice and its association with violence and crime Whether you're a health care professional politician someone seeking a new treatment option or a concerned citizen it's critical to inform yourself about The Cannabis Revolution Every Molecule Tells a Story Simon Cotton, 2011-11-16 Written by a seasoned teacher speaker and writer in the field of chemistry this text serves to provide a guide to the chemicals that make life possible and enrich the senses as well as those that endanger it This text combines the science and history of certain molecules and deals with the chemistry of each substance in an interesting and easily understandable manner Topics covered include substances found in air and water food hydrocarbons acids and alkalis natural killers unnatural killers destructive molecules pleasure molecules natural healers man made healers giant molecules and vitamins What You Need to Know About Cannabis Graeme Nice, David Emmett, 2008-10-15 Does cannabis really trigger schizophrenia Is it true that cannabis is a non addictive drug What's the difference between hash and skunk According to the UN's estimate 160 million people around the world use cannabis that's roughly 2.5 per cent of the world population Despite these figures most people have a profound lack of knowledge about cannabis made all the more dangerous by the changing nature of the drug itself with much higher levels of potency being seen today than ever before What You Need to Know About Cannabis offers accessible accurate and objective information about the drug allowing the reader draw their own conclusion The book demystifies the latest research about the effects of cannabis particularly in

relation to mental health issues Suitable for use as a resource for teachers professionals parents and young people who want to know the facts about cannabis this book tells you what you need to know about this controversial drug *Molecules That Amaze Us* Paul May, Simon Cotton, 2014-10-23 This new book is by two knowledgeable and expert popularizers of chemistry and deals exclusively with molecules and compounds rather than with the simpler atoms and elements It is based on the very successful Molecule of the Month website that was begun by Paul May fifteen years ago and to which his co author Simon Cotton has been a frequent co **Cannabis Chemistry and Biology** Mahmoud A. ElSohly, 2023-05-22 This book serves as an introduction to graduate students and early career researchers on chemistry and botany of the cannabis plant Cannabis botany propagation biotechnology chemistry cannabinoids and their biosynthesis chemovars of cannabis and their identification as well as the other chemical classes of compounds known to exist in the plant Analytical methods are discussed to establish identity and Potency changes over the years in the United States This book will build a base of knowledge on the complexity of cannabis chemistry Features Introduction to the fundamental chemistry and botany of Cannabis State of the art research on Cannabis sativa The history botany major chemical classes of cannabis as well as methods of analysis and potency trends over several decades in the United States Written by prominent scientists in the field of cannabis The Cannabis Chemistry Subdivision of the American Chemical Society recently founded in 2022 the ElSohly Award sponsored by Heidolph North America in honour of Prof Mahmoud A ElSohly This award provides researchers students and industry professionals with resources to present their work at the Spring National Meeting of the American Chemical Society at the ElSohly Award Symposium More information <https://cann.acs.org/wp-content/uploads/2020/12/CANN-Postcard-Award.pdf>
