BLI RECOMMENDATION

Based on an engine that proved to be highly reliable in BLI's rigorous two-month lab test, the Canon imageRUNNER 3570, configured with the Multi-PDL Print Kit-E1, is an outstanding performer that also offers very good output quality and excellent ease of use. It also gives users the ability to choose between two excellent scan solutions—Canon's Universal Send and eCopy's ShareScan OP. The unit features Canon's MEAP architecture, which enables it to run embedded applications that add functionality (including eCopy ShareScan OP for MEAP), customize the control panel to streamline workflow and integrate with a range of document management applications. This unit, which offers the lowest supplies cost per page of tested competitive models, is highly recommended for monthly volumes of up to 75,000 impressions.

* Reliability, image quality and toner yield results are based on the performance of the Canon imageRUNNER 4570, which uses the same engine.
