standards come and go but good teaching remains grounded in proven practices that sharpen students literacy skills Instead of blindly adhering to the latest standards movement Gallagher suggests Increasing the amount of reading and writing students are doing while giving students more choice around those activities Balancing rigorous high quality literature and non fiction works with student selected titles Encouraging readers to deepen their comprehension by moving beyond the four corners of the text Planning lessons that move beyond Common Core expectations to help young writers achieve more authenticity through the blending of genres Using modeling to enrich students writing skills in the prewriting drafting and revision stages Resisting the de emphasis of narrative and imaginative reading and writing Amid the frenzy of trying to teach to a new set of standards Kelly Gallagher is a strong voice of reason reminding us that instruction should be anchored around one guiding question What is in the best interest of our students
