Narratives of Love and Loss Margaret Rustin, Michael Rustin, 2020-05-05 Why do some stories written for children have so powerful an emotional resonance for both child and adult readers This is the question addressed by Margaret and Michael Rustin in a book which offers a detailed critical reading of some of the best known modern British and American stories for children by writers such as E B White Philippa Pearce and C S Lewis The authors make use of psychoanalytical and sociological ideas in their approach interpreting the stories both as metaphors of states of feeling often experienced by children and as images of the wider society in which they are written A particular theme of their discussion is personal and imaginative growth in childhood and the ways this can be affected both for better and worse by separation and loss In their detailed consideration of the narratives of the stories the authors avoid theoretical jargon and concentrate on works which have interest and meaning for adult readers as well as children Narratives of Love and Loss is an important and accessible book which will be of special interest to parents and teachers concerned with children's reading and imaginative play and to those working in the fields of psychoanalysis English literature and popular culture

The Family in English Children's Literature Ann Alston, 2008-06-03 From the trials of families experiencing divorce as in Anne Fine's Madame Doubtfire to the childcare problems highlighted in Jacqueline Wilson's Tracy Beaker it might seem that the traditional family and the ideals that accompany it have long vanished However in The Family in English Children's Literature Ann Alston argues that this is far from the case She suggests that despite the tales of family woe portrayed in children's literature the desire for the happy contented nuclear family remains inherent within the ideological subtexts of children's literature Using 1818 as a starting point Alston investigates families in children's literature at their most intimate focusing on how they share their spaces their ideals of home and even on what they eat for dinner What emerges from Alston's study are not so much the contrasts that exist between periods but rather the startling similarities of the ideology of family intrinsic to children's literature The Family in English Children's Literature sheds light on who maintains control who behaves and how significant children's literature is in shaping our ideas about what makes a family good

Opening Doors to a Richer English Curriculum for Ages 10 to 13 (Opening Doors series)
Verity Jones, Leah Crawford, Bob Cox, 2019-10-14

Opening Doors to a Richer English Curriculum for Ages 10 to 13 takes Bob Cox's award-winning Opening Doors series into bold new territories, providing a treasury of techniques and strategies, all carefully selected to support the design of a deeper, more creative and more expansive curriculum. Together with Leah Crawford and Verity Jones, Bob has compiled this rich resource to help teachers enhance their learners' engagement with challenging texts and develop their writing skills as budding wordsmiths. It includes 15 ready-to-use units of work covering a range of inspiring poetry and prose from across the literary tradition, complete with vivid illustrations by Victoria Cox. Bob, Leah and Verity's innovative ideas on theory, best practice and how to cultivate a pioneering classroom spirit are all integrated into the lesson suggestions, which have been designed for both the teacher's and the learners' immediate benefit. Together, they empower teachers to explore with their learners the scope and depth of literature capable of inspiring high standards and instilling a love of language in its many forms. Furthermore, they help teachers to lay down intricate curricular pathways that will prompt their pupils to better enjoy literature, read and analyse texts with a greater sense of curiosity and write with more originality. The book includes a great range of texts, both as the core of each unit and as link reading, incorporating some contemporary texts to show how past and present co-exist and how various literary styles can be taught using similar principles, all of which are open to further adaptation. The authors have also suggested key concepts around which the curriculum can be built, with the units providing examples with which you can work. All of the extracts and illustrations you will need in order to begin opening doors in your classroom are downloadable, and the book also includes a helpful glossary of key terms.
