

10 REASONS WHY SPAIN IS A RELIABLE PARTNER

1. We will contribute effectively to the maintenance of international peace and security, sustainable development, and to the promotion and protection of human rights.
2. We will be committed to conflict prevention, understanding between cultures, mediation, and non-proliferation and disarmament.
3. **Dialogue will be** our priority in the Security Council, as well as in our relations with other Member States, especially with the smallest ones.
4. We will work for a more effective and transparent Council, more coordinated with the General Assembly as well as with the rest of the UN's system and Member States of the Organization.
5. We will combat terrorism in all its forms, and we will give voice to its victims.
6. We will promote the post-2015 development agenda, the fight against poverty and sustainable development. There is no peace without **solidarity**.
7. We will defend human rights, gender equality, and women's full participation in peacebuilding. There is no peace without respect for human dignity.
8. We will promote humanitarian assistance wherever it is needed.
9. We will remain faithful to our history as a crossroads country between North and South, a bridge between East and West, respectful of tradition and committed to modernity.
10. We offer our **commitment** to achieving a fairer and safer world: a world with greater solidarity.

Commitment In Dialogue Commitment In Dialogue:

Commitment in Dialogue Douglas Walton,Erik C. W. Krabbe,1995-08-10 This book develops a logical analysis of dialogue in which two or more parties attempt to advance their own interests It includes a classification of the major types of dialogues and a discussion of several important informal fallacies The authors define the concept of commitment in a way that makes it useful in evaluating arguments In traditional logic a proposition is either true or false and that is the end of it In this new framework an arguer can be held to his or her commitments in some cases but in other cases he or she can retract them without violating any rule of the dialogue Commitment in Dialogue studies the conditions under which commitments should be held or may be retracted within an argument An extensive case study of a discussion in medical ethics is used to bring together two traditions or schools of thought that had not been integrated previously the rigorous Lorenzen school of formal logic and the more permissive Hamblin style dialogue It introduces these methods of evaluation and offers guidelines for analyzing the text of discourse The book could be used in both intermediate and advanced courses in informal logic argumentation and critical thinking but it is accessible to the reader with no background in these fields as well Each chapter is summarized and additional problems to be solved are presented *Commitment in Dialogue* Douglas N. Commitment Thomas F. Gross,2011-02-11 **Fundamentals of Critical Argumentation** Douglas Walton,2006

Fundamentals of Critical Argumentation presents the basic tools for the identification analysis and evaluation of common arguments for beginners The book teaches by using examples of arguments in dialogues both in the text itself and in the exercises Examples of controversial legal political and ethical arguments are analyzed Illustrating the most common kinds of arguments the book also explains how to analyze and evaluate each kind by critical questioning Douglas Walton shows how

arguments can be reasonable under the right dialogue conditions by using critical questions to evaluate them **Christians Meeting Hindus** Bob Robinson, 2011-06-16 With rare exceptions serious intentional reflective and sustained interfaith encounter is a novel and recent enterprise This book looks in detail at one such encounter the intentional recent Hindu Christian dialog in India and asks why and how the practice of dialog came to replace previous attitudes of confrontation and monologue especially on the part of Christians Part I sets the encounter in its global context Part II offers a comprehensive and critical analysis of the actual encounter Part III draws on aspects of the Christian tradition as it critically examines the ways in which the dialog has been justified in Christological categories A final chapter discusses the future of the encounter Unlike many other works in the area of interfaith studies this work combines both descriptive detail of the actual encounter and critical theological analysis of the strengths and weakness of the dialog model **Ad Hominem Arguments** Douglas Walton, 1998 A vital contribution to legal theory and media and civic discourse In the 1860s northern newspapers attacked Abraham Lincoln's policies by attacking his character using the terms drunk baboon too slow foolish and dishonest Steadily on the increase in political argumentation since then the argumentum ad hominem or personal attack argument has now been carefully refined as an instrument of oppo tactics and going negative by the public relations experts who craft political campaigns at the national level In this definitive treatment of one of the most important concepts in argumentation theory and informal logic Douglas Walton presents a normative framework for identifying and evaluating ad hominem or personal attack arguments Personal attack arguments have often proved to be so effective in election campaigns for example that even while condemning them politicians have not stopped using them In the media in the courtroom and in everyday confrontation ad hominem arguments are easy to put forward as accusations are difficult to refute and often have an extremely powerful effect on persuading an audience Walton gives a clear method for analyzing and evaluating cases of ad hominem arguments found in everyday argumentation His analysis classifies the ad hominem argument into five clearly defined subtypes abusive direct circumstantial bias poisoning the well and tu quoque you're just as bad arguments and gives methods for evaluating each type Each subtype is given a well defined form as a recognizable type of argument The numerous case studies show in concrete terms many practical aspects of how to use textual evidence to identify and analyze fallacies and to evaluate argumentation as fallacious or not in particular cases *The New Dialectic* Douglas N. Walton, 1998-01-01 Because developments in informal logic have been based for the most part on idealized and abstract models the tools available for argument analysis are not easily adapted to the needs of everyday argumentation In this book Douglas Walton proposes a new and practical approach to argument analysis based on his theory that different standards for argument must apply in the case of different types of dialogue By refining and extending the existing formal classifications of dialogue Walton shows that each dialogue type be it inquiry negotiation or critical discussion has its own set of goals He goes on to demonstrate that an argument can best be evaluated in terms of its contribution positive or negative to the goals of the

particular dialogue it is meant to further. In this way he illustrates how argument can be brought into the service of many types of dialogue and thus has valuable uses that go well beyond the mere settling of disputes and differences. By reaching back to the Aristotelian roots of logic as an applied practical discipline and by formulating a new framework of rationality for evaluating arguments, Douglas Walton restores a much needed balance to argument analysis. This book complements and extends his *Argument Structure: A Pragmatic Theory* (University of Toronto Press, 1996).

ECAI 2006 Gerhard Brewka, 2006

In the summer of 1956 John McCarthy organized the famous Dartmouth Conference which is now commonly viewed as the founding event for the field of Artificial Intelligence. During the last 50 years AI has seen a tremendous development and is now a well established scientific discipline all over the world. Also in Europe AI is in excellent shape as witnessed by the large number of high quality papers in this publication. In comparison with ECAI 2004 there is a strong increase in the relative number of submissions from Distributed AI, Agents and Cognitive Modelling. Knowledge Representation Reasoning is traditionally strong in Europe and remains the biggest area of ECAI 2006. One reason the figures for Case Based Reasoning are rather low is that much of the high quality work in this area has found its way into prestigious applications and is thus represented under the heading of PAIS.

Legal Argumentation and Evidence Douglas Walton, 2010-11-01

A leading expert in informal logic, Douglas Walton turns his attention in this new book to how reasoning operates in trials and other legal contexts with special emphasis on the law of evidence. The new model he develops, drawing on methods of argumentation theory that are gaining wide acceptance in computing fields like artificial intelligence, can be used to identify, analyze and evaluate specific types of legal argument. In contrast with approaches that rely on deductive and inductive logic and rule out many common types of argument as fallacious, Walton's aim is to provide a more expansive view of what can be considered reasonable in legal argument when it is construed as a dynamic rule governed and goal directed conversation. This dialogical model gives new meaning to the key notions of relevance and probative weight with the latter analyzed in terms of pragmatic criteria for what constitutes plausible evidence rather than truth.
