Embracing MESSY Leadership Alyssa Gallagher, Rosie Connor, 2024-05-24

School leadership is messy, but coaching conversations offer an opportunity to step back from the demands of everyday work and focus on developing leadership capabilities. Although every coaching conversation is personalized and every context is unique, many school leaders face similar issues. In *Embracing MESSY Leadership*, Alyssa Gallagher and Rosie Connor, directors of global educational leadership nonprofit BTS Spark, synthesize the experience gained from coaching more than 20,000 school leaders around the world and highlight the universal challenges. Here the authors unpack the key traits and mindsets of the MESSY leadership model, which embraces the human side of school leadership and provides practical strategies and tools that strengthen leadership capabilities. Coaching conversations that encourage leaders to adopt these specific mindsets will make it easier for them to lead in a complex world.

Meaning Making Create a shared vision and engage others by collaborating more effectively.

Emotional Connection Build deeper, more trusting relationships to give feedback and hold difficult conversations.

Sensing the Future Think creatively and tackle entrenched school improvement problems through experimentation and innovation.

Seizing Momentum Be proactive, gain control of how you prioritize your time, and embrace new ways of working.

Your Presence Build confidence by identifying the barriers that hold you back and learning how to overcome them.

Intentional coaching conversations tap into the potential power of school leaders and develop them to their fullest. Let *Embracing MESSY Leadership* structure those conversations and create school leaders that matter.

4D Leadership Alan Watkins, 2015-12-03

Today's leaders need to change radically to meet the challenge of complex organizations in business landscapes that are in flux. This requires a step change in development in three fundamental dimensions: how you do things, who you are, and how you relate to other people. 4D Leadership is what happens when this step change in doing, being, and relating takes place. When you move up to the next level of ability and sophistication in these three dimensions, you will have unlocked the fourth dimension: verticality, and you will receive a significant competitive advantage.

Neuroscientist and leadership coach Dr. Alan Watkins draws on groundbreaking research into adult development to present a framework that will transform your ability to excel as a leader. 4D Leadership isn't just a software patch for leadership skills; this is an upgrade to the next level of the human operating system, the next level of leadership development. 4D Leadership is
