Cold Anger A Story Of Faith And Power Politics:

Cold Anger Mary Beth Rogers,1990 Considering the importance which Latinos will have on American culture and politics in the 21st century very little of a nonscholarly nature has been written about them Rogers fills the gap somewhat with this journalistic biography of Ernesto Cortes a grass roots leader who teaches Latinos how to use the political system A man who combines religion and secular ideology Cortes is doing for the Latino communities nationally what Jesse Jackson did in Chicago a decade earlier The book effectively captures the flavor of the movement in small rural locales and in major urban centers conveying Cortes s ideology and energy as well as the issues close to the Latino heart A welcome look at minority politics in the 1990s

The Nature of Hope Char Miller,Jeff Crane,2019-02-15 The Nature of Hope focuses on the dynamics of environmental activism at the local level examining the environmental and political cultures that emerge in the context of conflict The book considers how ordinary people have coalesced to demand environmental justice and highlights the powerful role of intersectionality in shaping the on the ground dynamics of popular protest and social change Through lively and accessible storytelling The Nature of Hope reveals unsung and unstinting efforts to protect the physical environment and human health in the face of continuing economic growth and development and the failure of state and federal governments to deal adequately with the resulting degradation of air water and soils In an age of environmental crisis apathy and deep seated cynicism these efforts suggest the dynamic power of a politics of hope to offer compelling models of resistance regeneration and resilience The contributors frame their chapters around the drive for greater democracy and improved human and ecological health and demonstrate that local activism is essential to the preservation of democracy and the protection of the environment The book also brings to light new styles of leadership and new structures for activist organizations complicating assumptions about the environmental movement in the United States that have focused on particular leaders agencies thematic orientations and human perceptions of nature The critical implications that emerge from these stories about ecological activism are crucial to understanding the essential role that protecting the environment plays in sustaining the health of civil society The Nature of Hope will be crucial reading for scholars interested in environmentalism and the mechanics of social movements and will engage historians geographers political scientists grassroots activists humanists and social scientists alike

Roots to Power Lee Staples,2016-02-22 The third edition of the manual for community organizers tells readers how to most effectively implement community action for social change clearly laying out grassroots organizing principles methods and best practices Written for those who want to improve their own lives or the lives of others this thoroughly revised how to manual presents techniques groups can use to organize successfully in pursuit of their dreams The book combines time tested universal principles and methods with cutting edge material addressing new opportunities and challenges It covers basic concepts and best practices and offers step by step guidelines on things an organizer needs to know such as how to identify issues formulate strategies set goals recruit participants and

much more The work focuses on six organizing arenas turf geography faith based issue identity shared experience and work related It offers new or expanded material addressing community development use of social media internal organizational dynamics electoral organizing evaluation assessment and prevention of burnout for key leaders There are also nuts and bolts articles by experts who address topics such as action research lobbying legal tactics and grassroots fundraising Numerous case examples charts worksheets and small group exercises enrich the discussion and bring the material to life

Coalitions & Political Movements Thomas R. Rochon, David S. Meyer, 1997 Twelve contributions apply recent theory on movements to the nuclear freeze movement of the 1980s Subject areas include the development of the freeze movement its social and political impact and the question of whether the movement simply disintegrated or was transformed into other forms of activism Annotation copyrighted by Book News Inc Portland OR

What's Left? Mary Jo Weaver, 1999 What's Left employs a thoroughly in house approach in which self identified liberal Catholics examine various facets of liberal Catholicism this book explores some of the most prominent threads of leftist Catholic aspiration and dissent Choice What's Left is the most comprehensive study to date of liberal American Catholics in the generation following the second Vatican council 1962 65 The main features of liberal American Catholicism feminist theology and practice contested issues of sexual conduct new social locations of academic theology liturgy spirituality ministry race and ethnicity and public Catholicism are presented here in their historical and social contexts

With God on Our Side Anna Peterson, 2024-09-23 Religion plays a central role in a variety of social movements including many that are not explicitly faith based This book provides the first systematic analysis of the ways religion contributes to diverse movements for social change It draws on a variety of case studies from the US and globally to build an argument about religion's distinctive capacity to provide logistical support to inspire and legitimize activist practices to connect different spatial scales and to link big ideas to everyday experiences The book's analysis rests on three foundational arguments First and most fundamentally it is

impossible to understand movements for social change without analyzing the multiple ways that religion shapes their ideas communities and practices Second religion is always in mutually transformative interaction with social and political forces and can never be entirely separated from them In social movements and in the public sphere more generally people interpret politics with values and concepts drawn from religion and understand their activism as spiritually meaningful This challenges the assumption that religion is a largely a private matter Third scholars must treat religion as a relatively independent variable which actively shapes social processes just as it is shaped by them We cannot make sense of religion s role in social movements without acknowledging that religious institutions and traditions have to some extent a life of their own **Valley**

Interfaith and School Reform Dennis Shirley,2010-01-01 Can public schools still educate America s children particularly in poor and working class communities Many advocates of school reform have called for dismantling public education in favor of market based models of reform such as privatization and vouchers By contrast this pathfinding book explores how community organizing and activism in support of public schools in one of America s most economically disadvantaged regions the Rio Grande Valley of South Texas has engendered impressive academic results Dennis Shirley focuses the book around case studies of three schools that have benefited from the reform efforts of a community group called Valley Interfaith which works to develop community leadership and boost academic achievement He follows the remarkable efforts of teachers parents school administrators clergy and community activists to take charge of their schools and their communities and describes the effects of these efforts on students school performance and testing results Uniting gritty realism based on extensive field observations with inspiring vignettes of educators and parents creating genuine improvement in their schools and communities this book demonstrates that public schools can be vital laboratories of democracy in which students and their parents learn the arts of civic engagement and the skills necessary for participating in our rapidly changing world It persuasively argues that the American tradition of neighborhood schools can still serve as a bedrock of community engagement and academic achievement Resurrecting Democracy Luke Bretherton,2015 This book assesses the construction of citizenship as an identity a performance and a shared rationality *Shadows of the Heart* Evelyn Eaton Whitehead,James D. Whitehead,2003-10 Drawing from a wealth of psychological and spiritual sources the authors help us gain a new perspective on how we handle the painful emotions of anger shame guilt and depression
