Concepts of Programming Languages Robert W. Sebesta,1996 **Concepts of Programming Languages** Robert W. Sebesta,2000-10-01 **Learning Java** Joshua Crotts,2024-08-24 This introductory textbook on Java programming is different from others by its emphasis on test driven development Writing tests before designing the implementation is incredibly important for debugging purposes and understanding the desired outcome While testing is often an afterthought in other Java textbooks being placed at the very end or not at all which is in some ways cruel to withhold such capabilities from the student this text takes a different perhaps functional approach to learning Java it introduces testing and methods from the start followed by conditionals recursion and loops on purpose in this very order It then dives deep into data structures and the Java Collections API including streams and generics After this it pivots to object oriented programming exceptions and I O searching and sorting algorithm analysis and eventually advanced Java programming topics This ordering of topics is well adjusted to prepare students to subsequent upper level courses in data structure or algorithm design and implementation The approach is illuminated by numerous code snippets and the students understanding is consolidated by about 250 exercises covering all topics covered in the book With this book readers will not only learn how to program Java but also acquire a necessary precondition for successfully writing and testing commercial software *Programming Languages and Operational Semantics* Maribel Fernández,2014-07-08 This book provides an introduction to the essential concepts in programming languages using operational semantics techniques It presents alternative programming language paradigms and gives an in depth analysis of the most significant constructs in modern imperative functional and logic programming languages The book is designed to accompany lectures on programming language design for undergraduate students Each chapter includes exercises which provide the opportunity to apply the concepts and techniques presented
