Ross Steele, Terry Threadgold, 1987-01-01 This second volume in honour of Michael Halliday contains three sections The Design of Language Text and Discourse and Exploring Language as Social Semiotic and concludes with a recent interview conducted by Paul Thibault in which Halliday provides further insights in his theory of language The essential design features of language are semantic lexico grammatical and phonological Text for Halliday is a semantic unit expressed by the lexico grammatical and phonological patterns in language The papers in the first section study aspects of these three strata of language and the relation between them The second section deals with units higher than the clause complex and the papers there attempt to integrate the analysis of the lexico grammatical and phonological systems into higher level discourse units The papers in the third section develop the notion of language as social semiotic which is central to Halliday's model of language Knowledge and Coordination

Daniel B. Klein, 2012-01-27 In Knowledge and Coordination Daniel B Klein reexamines the elements of economic liberalism He interprets Hayek's notion of spontaneous order from the aestheticized perspective of a Smithian spectator and addresses issues economists have had surrounding the notion of coordination by distinguishing the ideas of Hayek Ronald Coase and Michael Polanyi from the mutual coordination of Thomas Schelling and game theory
