Colorado Driver's Manual for the Commercial Driver's License (CDL), 1990 **Michigan Commercial Driver License Manual**, 2005 **Illinois Criminal and Traffic Law Manual, 2007 Edition with CD-ROM** Publisher's Editorial Staff, 2007 **Third Party Examiner Manual** Michigan. Department of State, 1990 **TPA**, 2004 Commercial Driver License (CDL) Third Party Tester's Safety Officer Manual, 2013 This manual gives requirements for teaching commercial vehicle driving including requirements for safety officers and companies duties of designated responsible persons administrative requirements and CDL applicant requirements The American Postal Worker, 1990 **Simulation for Commercial Driver License Third Party Tester Testing** Henry Minh Truong, 2010 The advance of technology is thought to help ease the myriad tasks that are usually involved in operating equipment Training and testing in modern times have been replacing with simulation technologies that mimic the actual live operations and testing Many successful stories of flight simulation come from military fighter aircraft and commercial pilot programs The possibilities of safety in saving lives economic incentive in reducing the operational cost and reducing the carbon footprint via simulation makes simulation worth looking into These considerations quickly boosted the transfer from live training operations to virtual and simulation as were easily adopted in the history of flight training and testing Although there has been a lack of application the benefits of the computer based simulation as a modeling and simulation M individuals and companies are reluctant to adopt the use of the modeling and simulation driving or testing system Fortunately cost is not the only variable to consider for the training and testing administrators and their management There is a need to expand the use of technology to support live operations The safety of the student trainer and tester should be taken into account The availability of training or testing scenarios is also an influencing factor Ultimately the most important factor is driving safety on the American road The relationship of accidents with driver license fraud has led the Federal Department of Transportation to want to reduce fraud in third party Commercial Driver License CDL administration Although it is not a perfect solution that can fix all the utilization of simulation technologies for driving assessment could be a solution to help reduce fraud if it is applied correctly The Department of Transportation DOT authorized the states independent authority to administrate the local CDL including the use of the Third Party Tester TPT As a result some criminal activities prompted the Federal investigation to recommend changes and to fund the states to take action to stay in compliance with the Federal regulation This is the opportunity for the state CDL administrator to explore the use of M S to support its mission Recall those arguments for the use of the M S is the thought of safety in saving lives economic incentive in reducing the operational cost and reducing the carbon footprint via using simulation This makes simulation a viable resource This paper will report the research study of using the computer based testing modeling and simulation tools to replace or augment the current state examiner as means of assessing the CDL TPT proficiency in basic backing skills This pilot study of this system has several aspects to address The scenarios must be

relevant to test the knowledge of the TPT by using closely comparable scenarios to the current manual testing method The scenario based simulation should incorporate randomness to provide a greater sense of reality In addition the reconfigurable built in random behavior scenarios provide the administrator greater control of behaviors and allow the administrator to be able to select among the random scenarios Finally the paper will present the data sampling from relevant participants of the CDL TPT and methodology applied The analysis of data presents in this research study will be valuable for the State and Federal CDL administrator to consider the pros and cons of applying or adding a computer based simulation to their current testing methodology **CDL Testing with a Third Party Tester** ,2008 Testing with a Third Party CDL Tester ,2013
