**Deer Hunting with Jesus** Joe Bageant, 2008-06-24 Years before Hillbilly Elegy and White Trash a raucous truth telling look at the white working poor and why they have learned to hate liberalism What it adds up to he asserts is an unacknowledged class war By turns tender incendiary and seriously funny this book is a call to arms for fellow progressives with little real understanding of the great beery NASCAR loving church going gun owning America that has never set foot in a Starbucks Deer Hunting with Jesus is Joe Bageant s report on what he learned when he moved back to his hometown of Winchester Virginia Like countless American small towns it is fast becoming the bedrock of a permanent underclass Two in five of the people in his old neighborhood do not have high school diplomas or health care Alcohol overeating and Jesus are the preferred avenues of escape He writes of His childhood friends who work at factory jobs that are constantly on the verge of being outsourced The mortgage and credit card rackets that saddle the working poor with debt The ubiquitous gun culture and why the left doesn t get it Scots Irish culture and how it played out in the young life of Lyndie England **They Rule** Paul Street, 2015-11-17 They Rule reflects on key political questions raised by the Occupy movement showing how similar questions have been raised by previous generations of radical activists who really owns and rules the US Does it matter that the nation is divided by stark class disparities and a concentration of wealth in the hands of a few Along the way this book sharpens readers sense of who the US oligarchy are including how their fortunes have changed over the course of US history how they live and think and how to detect and de cloak them They Rule is a masterful historical and political analysis revealing what lies beneath the surface of US society and what ordinary people can do to bring about social change

**Outclassed** Joan C. Williams, 2025-05-20 An eye opening urgent call to mend the broken relationship between college and non college grads of all races that is driving politics to the far right in the US Is there a single change that could simultaneously protect democracy spur progress on climate change enact sane gun policies and improve our response to the next pandemic Yes changing the class dynamics driving American politics The far right manipulates class anger to undercut progressive goals and liberals often inadvertently play into their hands In Outclassed Joan C Williams explains how to reverse that process by bridging the diploma divide while maintaining core progressive values She offers college educated Americans insights into how their values reflect their lives and their lives reflect their privilege With illuminating stories from the Portuguese admiral who led that country s COVID response to the lawyer who led the ACLU s gay marriage response and more Williams demonstrates how working class values reflect working class lives Then she explains how the far right connects culturally with the working class deftly manipulating racism and masculine anxieties to deflect attention from the ways far right policies produce the economic conditions disadvantaging the working class Whether you are a concerned citizen committed to saving democracy or a politician or social justice warrior in need of messaging advice Outclassed offers concrete guidance on how liberals can forge a multi racial cross class coalition capable of delivering on progressive goals

*Gratitude, Injury, and Repair in a Pandemic Age* Michael Reid Trice, Patricia O'Connell Killen, 2025-01-02 The Covid pandemic caused both horrific loss of life and tremendous psychological uncertainty and stress with diagnoses of anxiety and mental illness at much higher levels than in 2019 For believers the pandemic raised obvious questions about the nature of God and increased the need for both material and spiritual pastoral care At the same time religious traditions also offered resources for making sense of such deep disruption This volume presents twelve reflections on the pandemic and its impact from Jewish Muslim Hindu non believing and Christian traditions The chapters offer scholarly insight and rigor but they also contain personal reflections on what it means to work through such a life changing event and to make meaning in a moment when life confronts us as so clearly partial fragmented and fragile

**Change They Can't Believe In** Christopher S. Parker, Matt A. Barreto, 2014-10-26 How the political beliefs of Tea Party supporters are connected to far right social movements Are Tea Party supporters merely a group of conservative citizens concerned about government spending Or are they racists who refuse to accept Barack Obama as their president because he is not white *Change They Can't Believe In* offers an alternative argument that the Tea Party is driven by the reemergence of a reactionary movement in American politics that is fueled by a fear that America has changed for the worse Providing a range of original evidence and rich portraits of party sympathizers as well as activists Christopher Parker and Matt Barreto show that the perception that America is in danger directly informs how Tea Party supporters think and act In a new afterword Parker and Barreto reflect on the Tea Party's recent initiatives including the 2013 government shutdown and evaluate their prospects for the 2016 election

*Going to My Father's House* Patrick Joyce, 2021-07-27 A historian's personal journey into the complex questions of immigration home and nation From Ireland to London in the 1950s Derry in the Troubles to contemporary de industrialised Manchester Joyce finds the ties of place family and the past are difficult to break Why do certain places continue to haunt us What does it mean to be British after the suffering of Empire and of war How do we make our home in a hypermobile world without remembering our pasts Patrick Joyce's parents moved from Ireland in the 1930s and made their home in west London But they never really left the homeland And so as he grew up among the streets of Paddington and Notting Hill and when he visited his family in Ireland he felt a tension between the notions of home nation and belonging *Going to My Father's House* charts the historian's attempt to make sense of these ties and to see how they manifest in a globalised world He explores the places the house the street the walls and the graves that formed his own identity He asks what place the ideas of history heritage and nostalgia have in creating a sense of ourselves He concludes with a plea for a history that holds the past to account but also allows for dynamic inclusive change

[Family History and Historians in Australia and New Zealand](#) Malcolm Allbrook, Sophie Scott-Brown, 2021-06-27 Since the turn of the twenty first century family history is the place where two great oceans of research are meeting family historians outside the academy with traditionally trained often university employed historians This collection is both a testament to dialogue and an analysis of

the dynamics of recent family history that derives from the confluence of professional historians with family historians their common causes and conversations It brings together leading and emerging Australian and New Zealand scholars to consider the relationship between family history and the discipline of history and the potential of family history to extend the scope of historical inquiry even to revitalise the discipline In Anglo Western culture the roots of the discipline s professionalisation lay in efforts to reconstruct history as objective knowledge to extend its subject matter and to enlarge the scale of historical enquiry Family history almost by definition is often inescapably personal and localised How then have historians responded to this resurgence of interest in the personal and the local and how has it influenced the thought and practice of historical enquiry

**Useful Enemies** David Keen, 2012-07-31 Keen investigates why conflicts are so prevalent and so intractable even when one side has much greater military resources He asks who benefits from wars whether economically politically or psychologically and argues that in order to bring them successfully to an end we need to understand the complex vested interests on all sides

Putting Inequality in Context Christopher Ellis, 2021-03-11 Rising income inequality is highlighted as one of the largest challenges facing the United States affecting civic participation and political representation Although the wealthy often can and do exert more political influence this is not always the case To fix political inequality it is important to understand exactly how class divisions manifest themselves in political outcomes and what factors serve to enhance or depress inequalities in political voice Christopher Ellis argues citizens and legislators views of class politics are driven by lived experience in particular communities While some experience is formally political on an informal basis citizens learn a great deal about their position in the broader socioeconomic spectrum and the social norms governing how class intersects

with day to day life These factors are important for policymakers since most legislators do not represent the public at large but specific constituencies Focusing on U S congressional districts as the contextual unit of interest Ellis argues individuals political behavior cannot be separated from their environment and shows how income s role in political processes is affected by the contexts in which citizens and legislators interact Political inequality exists in the aggregate but it does not exist everywhere It is rather a function of specific arrangements that depress the political influence of the poor Identifying and understanding these factors is a crucial step in thinking about what reforms might be especially helpful in enhancing equality of political voice
