recent centuries transgender behavior has rarely been the subject of scholarly or public attention During the 20th century medical advances in hormone therapy and reconstructive surgery the worldwide publicity generated by the Christine Jorgensen story in the 1950s and the popularity of such plays and movies as *La Cage Aux Folles* and *The Birdcage* make the subject much more visible for society This book is a compilation of autobiographies of women and men who openly describe their different and often very difficult journeys frankly Using a decade by decade format the contributors provide the reader with critical insights into the process of realization that led to their various gender expressions The contributors include homosexuals heterosexuals and bisexuals and their life stories make clear that a good deal of diversity exists within the gender community A thorough introduction by the editors provides many insights into gender issues from a biological socio anthropological and historical perspective
