Mozart and Enlightenment Semiotics Stephen Rumph, 2012 In Mozart and Enlightenment Semiotics Stephen Rumph shifts the ground of interpretation for late eighteenth century European music by reinstating the semiotics and language theory of the period In so doing Rumph challenges and reappraises current orthodoxies These challenges are extremely valuable bravely offered and intuitively right as well as convincingly argued Matthew Head author of *Orientalism* *Masquerade and Mozart s Turkish Music* Stephen Rumph s book is to my knowledge the first successful attempt to ground classical music in its contemporaneous intellectual context In this respect Rumph s book is a great achievement It is an imaginative tour de force bursting with dazzling insights and with an apparently encyclopedic range of intellectual reference in several languages Michael Spitzer author of *Metaphor and Musical Thought* By keeping so many things in focus at the same time Stephen Rumph has really written several books in one an introduction to Enlightenment theories of the sign for scholars of music a much needed historical context for modern musical semiotics a sensitive new exploration of the circulation of meanings in and through Mozart s music and an important contribution to the ongoing integration of musicology into cultural studies I suspect that in the course of several readings one would come away each time with a
