Dance Death Storied Aspects Illustrated:

Of the Decorative Illustration of Books Walter Crane, 1896 **Of the Decorative Illustration of Books Old and New**
Walter Crane, 1896 This book had its origin in the course of three Cantor lectures given before the Society of Arts in 1889 they have been amplified and added to and further chapters have been written treating of the very active period in printing and decorative book illustration we have seen since that time as well as some remarks and suggestions touching the general principles and conditions governing the design of book pages and ornaments Preface **Decorative Illustration of Books**
Walter Crane, 2016-08-08 The papers that follow this need no explanation since they are directed towards special sides of the Arts and Crafts Mr Crane has put forward the aims of the Arts and Crafts Exhibition Society as an Exhibition Society therefore I need not enlarge upon that phase of this book But I will write a few words on the way in which it seems to me we ought to face the present position of that revival in decorative art of which our Society is one of the tokens And in the first place the very fact vi that there is a revival shows that the arts aforesaid have been sick unto death In all such changes the first of the new does not appear till there is little or no life left in the old and yet the old even when it is all but dead goes on living in corruption and refuses to get itself put quietly out of the way and decently buried So that while the revival advances and does some good work the period of corruption goes on from worse to worse till it arrives at the point when it can no longer be borne and disappears To give a concrete example in these last days there are many buildings erected which in spite of our eclecticism our lack of a traditional style are at least well designed and give pleasure to the eye nevertheless so hopelessly hideous and vulgar is general building that persons of taste find themselves regretting the brown brick box with its vii feeble and trumpery attempts at ornament which characterises the style of building current at the end of the last and beginning of this century because there is some style about it and even some merit of design if only negative **Catalogue of the ...
