Deleuze And The Body Deleuze Connections Eup:

Deleuze and the Body Laura Guillaume, 2011-03-22 A collection of essays on the approaches and applications of Deleuze's philosophy to the body. Using a variety of contemporary cultural, scientific, and philosophical lines of enquiry, the contributors produce a truly multidisciplinary view of the Deleuzian body, inviting us to look afresh at art, movement, and literature. The Deleuzian body is not necessarily a human body, but the lines of enquiry here all illuminate the idea of the human body and thinking about formation, origins, and becoming in relation to power, creativity, and affect. *Therapy, Stand-Up, and the Gesture of Writing* Jonathan Wyatt, 2018-12-07 *Therapy Stand Up and the Gesture of Writing* is a sharp, lively exploration of the connections between therapy, stand-up comedy, and writing as a method of inquiry, and of how these connections can be theorized through the author's new concept: creative relational inquiry. Engaging, often poignant stories combine with rich scholarship to offer the reader provocative, original insights. Wyatt writes about his work as a therapist with his client Karl as they meet and talk together. He tells stories of his experiences attending comedy shows in Edinburgh and of his own occasional performances. He brings alive the everyday, profound through vignettes and poems of work, travel, visiting his mother, mourning his late father, and more. The book's drive, however, is in bringing together therapy, stand-up, and writing as a method of inquiry to mobilise theory, drawing in particular from Deleuze and Guattari, the new materialisms, and affect theory. Through this diffractive work, the text formulates and develops creative relational inquiry. With its combination of fluent storytelling and smart theoretical propositions, *Therapy Stand up and the Gesture of Writing* offers compelling possibilities both for qualitative scholars who have an interest in narrative, performative, and embodied scholarship, and those who desire to bring current, complex theories to bear upon their research practices. Deleuze, Altered States and Film Anna Powell, 2012-02-20 This book offers a typology of altered states: defining dream, hallucination, trance, vision, and ecstasy in their cinematic expression. **Educational Life-Forms** David R. Cole, 2012-01-01 This book takes the philosophy of Gilles Deleuze and applies it to educational practice. To understand how and why to do this, David R. Cole puts forward the notion of educational life forms in this writing, which are moving concepts based on Deleuzian principles. This book turns on and through the construction of the philosophy of life in education. The life forms that will come about due to the philosophy of life in education rest on epiphanies, the virtual, and affect. The author looks to infuse educational practice with the philosophy of life, though not through simple affirmation or a construction of counter-metaphysics to representation in education. This book uses Deleuze for practical purposes and sets out to help teachers and students to think otherwise about the current praxis of education. With this book, *Educational Life Forms*, which is an examination of the significance of the philosophy of Gilles Deleuze for education, David R. Cole proves himself to be one of the very small number of philosophers of education who has provided intelligent commentary of Deleuze's difficult corpus. Cole keenly appreciates the conceptual creativity of Deleuze, especially in relation to the concepts of life forms and body without organs, and effectively demonstrates its practical

implications for education Michael A Peters Professor Educational Policy Studies University of Illinois at Urbana Champaign David R Cole s Educational Life Forms Deleuzian Teaching and Learning Practice is a profound speculative work that offers both new ways of thinking about the philosophy of Gilles Deleuze as a practical thinker with ideas that can be applied at the coal face as it were and new ways of thinking about teaching and learning It engages with actual policy debates as they are played out in the complex reality of the classroom situation and brings to them a fresh perspective developed through a close reading of Deleuze This is an exciting new work which will berewarding reading for both Deleuzians and non Deleuzians and is sure to win converts amongst the latter Ian Buchanan Editor Deleuze Studies Professor of Critical Studies Dean of research in the Arts and Social Sciences University of Woolongong In this thoughtful and engaging book David R Cole has given us an answer to the important question of how Deleuze s philosophy enters into the practice of education Cole situates this philosophy within existing debates around teaching and learning not only through a very lucid account of Deleuze s work and current theory but also through highly effective and often moving examples of practice This book is essential reading for anyone interested in Deleuze and education James Williams Professor of European Philosophy University of Dundee

Considering Emotions in Critical English Language Teaching Sarah Benesch,2013-03-01 Groundbreaking in the ways it makes new connections among emotion critical theory and pedagogy this book explores the role of students and teachers emotions in college instruction illuminating key literacy and identity issues faced by immigrant students learning English in postsecondary institutions Offering a rich blend of and interplay between theory and practice it asks How have emotions and affect been theorized from a critical perspective and how might these theories be applied to English language teaching and learning What do complex and shifting emotions such as hope disappointment indignation and compassion have to do with English language teaching and learning in the neoliberal context in public universities How might attention to emotions lead to deeper understanding of classroom interactions and more satisfying educational experiences for English language teachers and students These questions are addressed not just theoretically but also practically with examples from college classes of assigned readings student writing and classroom talk in which various emotions came into play Thought provoking accessible and useful this is a must read book for scholars students and teachers in the field of English language teaching

Jacques Ranciere: Aesthetics, Politics, Philosophy Robson Mark Robson,2019-08-07 Aesthetics is not the fateful capture of art by philosophy It is not the catastrophic overflow of art into politics It is the originary knot that ties a sense of art to an idea of thought and an idea of the community Jacques Ranciere This special issue of Paragraph brings together new essays on the work of Jacques Ranciere by thinkers from a range of disciplines and critical perspectives In particular the contributors address topics such as politics aesthetics education literature historiography community and the end of philosophy The volume includes a new piece by Jacques Ranciere Published as a special issue of the journal Paragraph 28 1 **Thinking with Images** John M. Carvalho,2018-08-06 This book advances an enactivist theory of aesthetics through the study of

inscrutable artworks that challenge us to think because we do not know what to think about them John M Carvalho presents detailed analyses of four artworks that share this unique characteristic Francis Bacon's Study After Velázquez's Portrait of Pope Innocent X 1953 the photographs of Duane Michals based on a retrospective of his work Storyteller at the Carnegie Museum of Art 2014 tant donn's 1968 by Marcel Duchamp and Jean Luc Godard's 1963 film Le Mpris released in the United States as Contempt Carvalho argues against the application of theory to derive appreciation or meaning from these artistic works Rather each study enacts an embodied cognitive engagement with the specific artworks intended to demonstrate the value of thinking about artworks that might be extended to our engagement with the world in general This thinking happens as these studies show when we trust our embodied skills and their guide to what artworks and the world around us afford for the activation and refinement of those skills Thinking with Images will be of interest to scholars working in the philosophy of art and philosophical aesthetics as well as art historians concerned with the meaning and value of contemporary art

Researching Child-Dog Relationships and Narratives in the Classroom Donna Carlyle, 2024-02-13 This interdisciplinary book explores posthuman and psychological approaches to childhood education and well being by examining animal assisted education using qualitative approaches to understand the nuanced mechanisms which unfold in child dog interactions Mapping the lives of children in a primary school setting and the relationships they share with their school and classroom dog Ted the book provides insight into everyday child dog encounters the importance of touch in middle childhood and how bodiment offers a corporeal and compassionate means to understand the rhythm and musicality in interspecies communication In doing so the book uses the unique orientation of rhythmanalysis a posthuman critical theory and new materialist orientation in multispecies empathic childhood flourishing in the future Reflecting contemporary interest in child dog companionship picture books children's flourishing and children's well being the book provides a nuanced multidisciplinary overview of the field Using creative methods as well as spatial sensory and movement theory this book will appeal to scholars researchers and academics in the fields of cognitive psychology child and adolescent psychiatry and primary and elementary education Those interested in the early years will also benefit from this volume [Shakespeare in French Theory](#) Richard Wilson, 2014-02-25 At a time when the relevance of literary theory itself is frequently being questioned Richard Wilson makes a compelling case for French Theory in Shakespeare Studies Written in two parts the first half looks at how French theorists such as Bourdieu Cixous Deleuze Derrida and Foucault were themselves shaped by reading Shakespeare while the second part applies their theories to the plays highlighting the importance of both for current debates about borders terrorism toleration and a multi cultural Europe Contrasting French and Anglo Saxon attitudes Wilson shows how in France Shakespeare has been seen not as a man for the monarchy but a man of the mob French Theory thus helps us understand why Shakespeare's plays swing between violence and hope Highlighting the recent religious turn in theory Wilson encourages a reading of plays like Hamlet Julius Caesar A Midsummer Night's Dream and Twelfth Night as

models for a future peace Examining both the violent history and promising future of the plays Shakespeare in French Theory is a timely reminder of the relevance of Shakespeare and the lasting value of French thinking for the democracy to come

Postnaturalism Shane Denson, 2014-07-15 Postnaturalism offers an original account of human technological co evolution and argues that film and media theory in particular needs to be re evaluated from the perspective of our material interfaces with a constantly changing environment Extrapolating from Frankenstein films and the resonances they establish between a hybrid monster and the spectator hooked into the machinery of the cinema Shane Denson engages debates in science studies and philosophy of technology to rethink histories of cinema media technology and ultimately of the affective channels of our own embodiment With a foreword by media theorist Mark B N Hansen
