men of color especially sports figures But the number one thing that I used to learn how to read better was the sports page of the L A Times I would read that section from front page to back page every morning before school But in school poetry was my most favored reading I liked the rythming of words as well as the message I think it was related to another love of mine as a child and that was music and dancing It didn t take long for me memorize the lyrics of a song as we danced along singing aloud as if we were endowed with a gift from heaven above with that special kind of love That was the ultimate fun as a young man growing up to meet the girls To write little poems to your girlfriends was what I liked most The poetry of greeting cards was my cup of tea after my education experience on our family festivities and celebrations I would add my own poems to the cards on these occasions The family and friends always seemed to like them so very much always complimenting and encouraging me to write more But I did not pursue poetry much as I continued my quest for facts in pursuit of truth When my marriage ended in divorce in the early 1980s it was music and poetry that brought joy and peace within That s when my writing of poetry increased and my perspective about other things expanded As a single man again it was very interesting living the single life Now I have been married for 18 years living the family life called the American dream with grand children and all the wrappings and trappings that go with it But I don t mind one little bit because most of us should be graceful for the material life this land has produced despite its inequities For the horizon does not look as favorable for our future generations that must cope with the mess we have left for them in the physical mental and spiritual planes of life
