Commentary On The Law Of Prize And Booty Natural Law Paper:

Commentary on the Law of Prize and Booty Hugo Grotius, 2006 The history of *Commentary on the Law of Prize and Booty* is complex When Grotius's personal papers were auctioned in The Hague in 1864 Dutch scholars discovered that his famous *Mare Liberum* was just one chapter in a manuscript of 163 folios written in justification of Jacob van Heemskerck's capture of the Santa Catarina a Portuguese merchantman in the Straits of Singapore in February 1603 A prominent Dutch historian of the nineteenth century Robert Fruin persuaded the classical scholar H G Hamaker to transcribe and publish it and the Latin text was issued in 1868 This Liberty Fund edition is based on the one prepared by Gwladys L Williams and Walter H Zeydel for the Carnegie Endowment for International Peace It combines a revised text and new material making it a highly attractive edition of a work that is difficult to obtain

The Working Papers of Hugo Grotius Martine Julia van Ittersum, 2024-05-27 *The Working Papers of Hugo Grotius* is the first full length study of the handwritten documents initially used by the author of *Mare Liberum* 1609 and *De Jure Belli ac Pacis* 1625 in his day to day activities as a scholar lawyer and politician but subsequently incorporated into his own or other archives Martine van Ittersum reconstructs a process of transmission dispersal and loss that started during Grotius lifetime and ended with the papers auction in 1864 This is also a study of archival afterlives Our understanding of Grotius life and work is shaped by the conscious decisions of previous generations to retain or discard documents frequently for the sake of individual lives and careers family honour and or larger political and religious ends

The Project of Positivism in International Law Mónica García-Salmones Rovira, 2013-11-28 International legal positivism has been crucial to the development of international law since the nineteenth century It is often seen as the basis of mainstream or traditional international legal thought *The Project of Positivism in International Law* addresses this theory in the long standing tradition of critical intellectual histories of international law It provides a nuanced analysis of the resilience of the economic positivist theory and shows how influential its role was in shaping the modern frameworks of international law The book argues that the rise of positivist international law was inseparable from philosophical developments placing the notion of conflict of interests at the centre of collective life Where previously international thought was dominated by notions of the right the just and the good increasingly international relations became viewed as interests in need of harmonisation In this context international law was re founded as the universal law that could harmonise the interests of both public and private international entities The book argues that these evolutions in philosophical thought were bound up with the consolidation of capitalism and with the ideas about human existence and human nature which emerged in that process It provides an

innovative analysis of the selected biography of ideas which it presents including a detailed focus on the work of Hans Kelsen one of the leading positivist thinkers of the twentieth century It also argues that the work of Lassa Oppenheim should be included within this analysis as providing some of the key founding texts of positivism in international law This book will be a fascinating read for scholars and students of international legal theory historians of ideas and legal philosophers Lectures in Aerospace Medicine. 1960- USAF School of Aerospace Medicine,1961 , *Imagining World Order* Chenxi Tang,2018-12-15 No detailed description available for Imagining World Order **Profit and Principle** Martine van Ittersum,2006-03-01 This monograph is a study of the interaction of politics and political theory in The Netherlands and Asia in the early seventeenth century Its focal point is the Dutch jurist Hugo Grotius 1583 1645 who developed his rights and contract theories for the benefit of the United Dutch East India Company or VOC The monograph reconstructs the immediate historical context of his political thought as conceptualized in his early manuscript *De Jure Praedae* On the Law of Prize and Booty and *Mare Liberum* The Free Sea 1609 It argues that Grotius justification of Dutch interloping in the colonial empires of Spain and Portugal made possible the VOC s rise to power in the Malay Archipelago which resulted in the slow but steady loss of self determination on the part of the inhabitants of the Spice Islands **Strategy in the American War of Independence** Donald Stoker,Kenneth J. Hagan,Michael T. McMaster,2009-10-16 This book examines the strategies pursued by the Colonies and the other combatants in the American War for Independence placing the conflict in its proper global context Many do not realize the extent to which the 1775 colonial rebellion against British rule escalated into a global conflict Collectively this volume examines the strategies pursued by the American Colonies Great Britain France Spain and Holland and the League of Armed Neutrality placing the military naval and diplomatic elements of the struggle in their proper global context Moreover assessing how each nation prosecuted their respective wars provides lessons for current students of strategic studies and military and naval history This book will be of great interest to students of strategic studies American history Military History and political science in general Donald Stoker is Professor of Strategy and Policy for the US Naval War College s Monterey Program in Monterey California He joined the Strategy and Policy faculty in 1999 and has taught both in Monterey and Newport Kenneth J Hagan Professor Emeritus the U S Naval Academy is currently Professor of Strategy and Policy for the U S Naval War College s Monterey Program Michael T McMaster is a Professor at the U S Naval War College in Monterey He is a retired U S Navy Commander
