

Statement of Commitment

The 2023 BIOTech Futures Challenge is a 4 week challenge commencing on the 4th of September and ending on the 29th of September. Please ensure that you are able to commit to the Challenge during these dates. The Symposium will be held on the 16th of October for finalists to present their work. Everyone involved in the Challenge is encouraged to attend.

Mentors

Mentors are the backbone of the BIOTech Futures program and in the past teams have mentioned that working with their mentors has been the greatest take-away from the Challenge. Mentors need to be approachable and actively responsive to the queries of their teams. They communicate through email using their official, registered email address, online conference calls (zoom/skype), or over the phone. Mentors and teams are also able to meet in person if it is possible.

Mentors can guide students through two ways:

1. By suggesting particular project(s) in the area of expertise of the mentor, which students can choose.
2. By mentoring students on projects that the students have devised themselves.

Examples of past project titles include 'a novel non-thrombogenic film for mechanical heart valves', 'therapeutic clothes for eczema', '3D printed uterus transplant for endometriosis', 'drug elucidating hydrogel dressing for enhanced wound healing', and 'a smart greenhouse approach for maximising root oxygen levels in food crop'.

Mentors contributing a particular project should also contribute some relevant literature links. By and large, the provided literature should be open-access. If a particular piece of literature is necessary to the project then the mentor
