Along the way, there's a wealth of information and insights that show how this powerful empire grew, and what it meant for the world. From the early days of the city to the fall of the empire, this timeline is a must-read for anyone interested in the history of the world as we know it.

The Roman Kingdom (c. 753 BCE - 509 BCE)

Rome's earliest period is known as the Roman Kingdom, a time of legendary founding and growth. According to Roman tradition, the city was founded by two brothers, Romulus and Remus, who became the first king of Rome after founding the city. The Roman Kingdom was ruled by a series of kings, including the legendary figure of Numa Pompilius, who is credited with the founding of the city.

The kingdom's power was initially based on the city of Rome and its surrounding areas. But Rome's expansion to other cities through military conquest and strategic alliances with neighboring peoples, the Roman Empire, the political and social center of the world, began to take shape during this period.

The first king of Rome, Romulus, is said to have founded the city in 753 BCE, in response to the legendary tale of the city's founding. The Roman Kingdom was the first of the city's history, and the beginning of a long line of great leaders and political figures.

The Roman Republic (509 BCE - 27 BCE)
