Common Places in Christian Theology Mark C. Mattes, 2023-03-21 Common Places in Christian Theology invites readers to discover the rich and complex world of Christian theology. Sponsored by the journal Lutheran Quarterly and written by some of the finest contemporary Lutheran theologians, this collection of essays helps Christian teachers understand and explain the grammar and inner logic of faith. Exploring everything from scriptural authority to salvation and justification, and the last things, these writers provide a unique and compelling introduction to Lutheran theology. As you receive the essentials of each topic, you will also consider contemporary concerns, whether in theology or from the natural sciences, social sciences, political theories, or hermeneutics. Whether you are a seasoned preacher looking to sharpen your understanding of faith or a curious Christian seeking to better articulate your relationship with God, Common Places in Christian Theology will challenge and inspire you to think through your faith and share it with others. Companion to Reformation Theology David M. Whitford, 2014-09-25 This volume introduces the main theological topics of Reformation theology in a language that is clear and concise. Theology in the Reformation era can be complicated and contentious. This volume aims to cut through the theological jargon and explain what people believed and why. The book begins with an essay that explains to students how one can approach the study of sixteenth-century theology. It includes a guide to major events, persons, doctrines, and movements. *English Renaissance Translation Theory* Neil Rhodes, Gordon Kendal, Louise Wilson, 2013 This volume is the first attempt to establish a body of work representing English thinking about the practice of translation in the early modern period. The texts assembled cover the long sixteenth century from the age of Caxton to the reign of James I and are divided into three sections: Translating the Word of God, Literary Translation, and Translation in the Academy. They are accompanied by a substantial introduction, explanatory and textual notes, and a glossary and bibliography. Neil Rhodes is Professor of English Literature and Cultural History at the University of St Andrews and Visiting Professor at the University of Granada. Gordon Kendal is an Honorary Research Fellow in the School of English, University of St Andrews. Louise Wilson is a Leverhulme Early Career Fellow in the School of English, University of St Andrews. Performing Ethics in English Revenge Drama Noam Reisner, 2024-06-27 An investigation of how Renaissance English revenge drama carried out important ethical work through audience participation and metatheatricality. **Luther the Reformer** James M. Kittelson, 2016-10-01 For nearly thirty years, James M. Kittelson's *Luther the Reformer* has been the

standard biography of Martin Luther Like Roland Bainton's biography of the generation before Kittelson's volume is the one known by thousands of students pastors and interested readers as the biography that gave them the details of this dramatic man and his history The accolades were well deserved Fair insightful and detailed without being overwhelming Kittelson was able to negotiate a middle way between the many directions of historical research and present a more complete chronological picture of Luther than many had yet portrayed For this revised edition Hans H Wiersma has made an outstanding text even better The research is updated and the text is revised throughout with an emphasis on retaining the tone and pace of the original Additionally the volume has an entirely new map and image program updated bibliographies improved timelines and other features to enhance the reading experience It's a great volume greatly improved **The Augsburg Confession** Timothy J. Wengert, 2020-09-01 The Augsburg Confession is the single most important confession of faith among Lutherans today However it is often taught either from a historical perspective or from a dogmatic one Yet the context out of which it arose was far more practical and lively marked from the outset as confessions of faith in the face of fierce opposition and threats The original princely signers while clearly outlining the teaching of their churches were also staking their lives on the witness to the gospel that had been emanating from Wittenberg since 1517 when Martin Luther first published his Ninety Five Theses By situating both the history and the theology of this document within the practice and life of faith Timothy J Wengert shows just how relevant the Confession's witness is for today's Lutheran parishes and their leaders by unlocking how its articles can shape and strengthen the church's witness today *Breaking Ground* B.
