Bosch and Bruegel Joseph Leo Koerner,2023-10-17

A bold new interpretation of two northern Renaissance masters In this visually stunning and much anticipated book acclaimed art historian Joseph Koerner casts the paintings of Hieronymus Bosch and Pieter Bruegel in a completely new light revealing how the painting of everyday life was born from what seems its polar opposite the depiction of an enemy hell bent on destroying us Supreme virtuoso of the bizarre diabolic and outlandish Bosch embodies the phantasmagorical force of painting while Bruegel through his true to life landscapes and frank depictions of peasants is the artistic avatar of the familiar and ordinary But despite their differences the works of these two artists are closely intertwined Bruegel began his career imitating Bosch s fantasies and it was Bosch who launched almost the whole repertoire of later genre painting But Bosch depicts everyday life in order to reveal it as an alluring trap set by a metaphysical enemy at war with God whereas Bruegel shows this enemy to be nothing but a humanly fabricated mask Attending closely to the visual cunning of these two towering masters Koerner uncovers art history s unexplored underside the image itself as an enemy An absorbing study of the dark paradoxes of human creativity Bosch and Bruegel is also a timely account of how hatred can be converted into tolerance through the agency of art It takes readers through all the major paintings drawings and prints of these two unforgettable artists including Bosch s notoriously elusive Garden of Earthly Delights which forms the core of this historical tour de force Elegantly written and abundantly illustrated the book is based on Koerner s A W Mellon Lectures in the Fine Arts a series given annually at the National Gallery of Art Washington Published in association with the Center for Advanced Study in the Visual Arts National Gallery of Art Washington DC Please note All images in this ebook are presented in black and white and have been reduced in size

Pieter Bruegel the Elder Pieter Bruegel,2001 Pieter Bruegel the Elder 1525 30 1569 was a remarkable draftsman and designer of prints as well as a great painter His independent drawings and designs for engravings and etchings which were carried out by the leading printmakers of his day have fascinated scholars and the general public alike since they were created They have recently been the subject of research that has given rise to a reevaluation of the parameters of Bruegel s oeuvre The new scholarship has been brought to bear in the texts of the present volume which accompanies a major exhibition of 140 of Bruegel s prints and drawings to be shown at the Museum Boijmans Van Beuningen Rotterdam from May to August 2001 and at The Metropolitan Museum of Art New York from September to December 2001 An international group of experts discusses the new Bruegel who has emerged from recent studies in essays on the artist s life his contributions as a draftsman and as a printmaker the survival of his art and his relationship to the humanism of his day They also illuminate his genius in entries on all the works in the exhibition Every work is illustrated and rich comparative illustrations are included Provenances and

Pieter Bruegel's Historical Imagination Stephanie Porras, 2016-02-23 The question of how to understand Bruegel's art has cast the artist in various guises as a moralizing satirist, comedic humanist, celebrator of vernacular traditions, and proto-ethnographer. Stephanie Porras reorients these apparently contradictory accounts, arguing that the debate about how to read Bruegel has obscured his pictures' complex relation to time and history. Rather than viewing Bruegel's art as simply illustrating the social realities of his day, Porras asserts that Bruegel was an artist deeply concerned with the past. In playing with the boundaries of the familiar and the foreign, history and the present, Bruegel's images engaged with the fraught question of Netherlandish history in the years just prior to the Dutch Revolt, when imperial, religious, and national identities were increasingly drawn into tension. His pictorial style and his manipulation of traditional iconographies reveal the complex relations unique to this moment among classical antiquity, local history, and art history. An important reassessment of Renaissance attitudes toward history and of Renaissance humanism in the Low Countries, this volume traces the emergence of archaeological and anthropological practices in historical thinking, their intersections with artistic production, and the developing concept of local art history.

Pieter Bruegel the Elder Todd M. Richardson, 2017-07-05 *Pieter Bruegel the Elder: Art Discourse in the Sixteenth Century Netherlands* examines the later images by Bruegel in the context of two contemporary discourses: art theoretical and convivial. The first concerns the purely visual interactions between artists and artistic practices that unfold in pictures, which often transgress the categorical boundaries modern scholars place on their work, such as sacred and profane, antique and modern, and Italian and Northern. In this context, the images themselves—those of Bruegel, his contemporaries, and predecessors—make up the primary source material from which the author argues. The second deals with the dialogue that occurred between viewers in front of pictures and the way in which pictorial strategies facilitated their visual experience and challenged their analytical capabilities. In this regard, the author expands his base of primary sources to include convivial texts, dialogues, and correspondences, and texts by rhetoricians and Northern humanists addressing art theoretical issues. Challenging the conventional wisdom that the artist eschewed Italianate influences, this study demonstrates how Bruegel's later peasant paintings reveal a complicated artistic dialogue in which visual concepts and pictorial motifs from Italian and classical ideas are employed for a subject that was increasingly recognized in the sixteenth century as a specifically Northern phenomenon. Similar to the Dutch rhetorician societies and French Pléiade poets who cultivated the vernacular language using classical Latin, the function of this inter pictorial discourse, the author argues, was not simply to imitate international trends, a common practice during the period, but to use it to cultivate his own visual vernacular language. Although the focus is primarily on Bruegel's later work, the author's conclusions are applied to sketch a broader understanding of both the artist himself and the vibrant artistic dialogue occurring in the Netherlands.
