

"Soms, als het hard vriest, verliezen bomen in één nacht al hun bladeren. Soms, als er een komeet heel dicht langs de aarde raast, verbranden in de staart van die komeet miljoenen onschuldige mensen.

Ik zie vrouwen schreeuwend, brandend, sommigen met kinderen in de armen, van bruggen springen. De asfaltwegen staan in brand. Ik zie hoe het zwarte water zich om de brandende fakkel sluit en ik huil.

Als de hele oorlog achter de rug is, als de komeet voorbij gereisd is, blijft ook nog dat ik een misdadiger van het laagste alloy ben".

*De tweede generatie: herinneringen van een NSB-kind* P. Berserk, 1985      **Reverberations of Nazi Violence in Germany and Beyond** Stephanie Bird, Mary Fulbrook, Julia Wagner, Christiane Wienand, 2016-02-25 Reverberations of Nazi Violence in Germany and Beyond explores the complex and diverse reverberations of the Second World War after 1945 It focuses on the legacies that National Socialist violence and genocide perpetrated in Europe continue to have in German speaking countries and communities as well as among those directly affected by occupation terror and mass murder Furthermore it explores how those legacies are in turn shaped by the present The volume also considers conflicting unexpected and often dissonant interpretations and representations of these events made by those who were the witnesses victims and perpetrators at the time and also by different communities in the generations that followed The contributions from a range of disciplinary perspectives enrich our understanding of the complexity of the ways in which a disturbing past continues to disrupt the present and how the past is in turn disturbed and instrumentalized by a later present

**Collaboration with the Nazis** Roni Stauber, 2010-09-13 This book examines the changes in representing collaboration during the Holocaust especially in the destruction of European Jewry in the public discourse and the historiography of various countries in Europe that were occupied by the Germans or were considered at least during part of the war as Germany's allies or satellites In particular it shows how representations and responses have been conditioned by national and political trends and constraints As historical background to the issues of postwar collective memory and public discourse it includes references to and short descriptions of major manifestations of collaboration chiefly in regards to the Jews in each of these countries during the war Whether they were Communist or democratic regimes the book shows how the sudden burden of the past was suppressed denied or distorted in various periods Covering a wide area of both Eastern and Western Europe from different specialist perspectives this comprehensive study of collaboration in the Holocaust and its aftermath will be a valuable tool for teachers and students in the field of modern European history and Holocaust studies
