De Onvolmaakte Maatschappij:

De Volksmissionaris, 1917 **The banking and credit system of the USSR** O. Kuschpèta, 2012-12-06 It is a pleasure to introduce Dr Kuschpeta's study of the USSR banking and credit system with some measure of enthusiasm for the subject is one about which there is as yet not much literature available in the Western European languages and this study approaches the subject from the view point of sources taken from within the Soviet Union itself No matter how revolutionary the change some ties with the past still remain and it is for this reason that the author has paid initial attention to the banking system of the Tsars and proceeds to deal with the development of the banking system since the Revolution of 1917 While history has made the Communist Civil War the New Economic Policy and the Khrushchev reforms to be familiar to us the effects of these events on the banking and monetary system have thus far never been fully researched Next the author deals extensively with the existing banking and credit system This subject is not easy to understand because we are obliged to become familiar with totally different concepts than those governing the mixed economic system of the Western World I personally am struck by the sharp separation between the currency and the deposit or transfer money circulation
